OCTOBER Preschool Themes:

~Fun with Shapes and Colors

~Fire Safety Week

~Down on the Farm

~Trick or Treat

~Animals at Night

10 Easy Halloween Safety Tips

Halloween should be an exciting time of year for children and their parents, but too often the celebration devolves into tragedy. This season, make safety the top priority for your family.

Best Practices for Parents

1. Always accompany young children when trick-or-treating.
2. Watch for motorists and cross alleys carefully.
3. Only visit houses that are well-lit when trick-or-treating.
4. Use reflective tape or other light-up devices to increase your child's nighttime visibility, especially when wearing dark costumes.
5. Do not let children eat strangers' homemade treats.
6. Avoid candles and open flames, especially when in costume.
7. Keep costume accessories soft and flexible (for example, swords or knives).
8. Examine your children's treats for choking hazards or tampering before they eat.
9. Remove any costume makeup before bed to avoid skin and eye irritation.
10. Make sure costumes and accessories do not impair visibility or inhibit movement

Watch for upcoming Halloween parties and trick or treating around the center!
