Tomorrow's World Order

## WHAT CAN HUMANS BE AS PER THE BOOK OF CREATION

Predefined parameters are parameters set by the creator to guide his creation into something he wants and want to work the way he want it to work in other words they are working parameters that guide everything if a human from breathing to death and even after death these make sure that the human being live a normal healthy lifestyle full of energy and activities because the purpose is To tell the body what it can do and must do throughout life so that the experience gained manifest itself in boxes of predefined parameters where everything achieved is documented and to be presented at birth to redirect the person to the correct afterlife if you were not interested in seeing heaven might not be for you and another place can be chosen for you so all what is the fact that humans must achieve everything as predefined parameters to be assigned the correct place when death comes knocking now let's look at all predefined parameters here is a list the first is to do with Creation These are to do with life and death and how the body must react in terms of these and must be abided by for a human being to enjoy full life and must abide by these failures will result in some of the predefined parameters removed at the end when death come knocking now what are precreation predefined parameters? These regulate the life that is being created and must be in consistence with creation meaning if a human being chooses to ignore any of the commands then the predefined are to be useless

hence in the end they might be removed as unused hence unwanted or pointless but if needed they can still be incorporated into the next design hence these must take over and control the creation now let's look at some examples where a human being has precreation predefined hence we must know what these are

1. Do not live and die then live aim to live live live then die this means that its unlogic for any human being to think of living then dying then reliving again this means that humans must aim to make the most of the time they have as humans then ask to be relieved of living hoping to come back at some time in the future if we ask what can be of humans that think too much then this is the answer they waste time procrastinating rather than getting on with life
2. If we are to ask what can be of humans that waste time thinking and not acting then this is the answer they miss opportunities to create wealth because time does not wait for any men but some men can make time wait for them but this is rare a once in a lifetime opportunity and this is the only time this has happened and probably will never happen again [David Gomadza] so if we ask what can be of humans that an work fast and make wealth these are the ones that can make things happen as time is on their side they have wealth and everything hence all they need is a bit of lucky for the wheel of fortune to be at the right place for them to make a fortune if we look at what can be of these people here is the list of things they can easily accomplish
  - a] they can make appointment with the creators of other things and invest in their research etc.
  - b] they can calculate when to invest in other people's investments and make it big when they reap benefits
  - c] they can always be prepared for anything to invest and make big rewards as this is the only way in life to make money the rest is just talking bullshit
  - d] if we ask what can be of people with no money but time then they keep procrastinating about money because now they found time but time alone can't make money you need a great business plan to start but the only thing is that they

are in great shape to start anything and the sky is the only limit

e] if we can ask what can be of people like him then this is the answer it might take even more time to strike it big but when they make it them beat everyone else because their plans can't be matched by anyone but if we look at those who are successful most become successful then die leaving all the wealth in the hands of family members this has been the trend with all humans but we might see a new way of doing things with David Gomadza as he has embarked on looking for longevity then search for the fortune and if this works he will have solved THE GREAT INTELLIGENCE RIDDLE by Waaaaaer Yahweh 00000<sup>389</sup> where he talked about how he can postpone everything and look for a way to increase longevity as in the book of creation telling people that everyone who finds longevity first is the greatest human being to live on earth which he did but only after death and now we have his own follower achieving his dream and this is remarkable because what are the odds of something like this happening surely he is the best creator ever if he can guide his own created being to fulfill his dreams while his follower

Now let's look at other predefined parameters

Birth predefined 2800

Life predefined 1700

Death 700

Eternity 600

After eternity 200

After after eternity 160

Afterlife 100

The body must obey all predefined parameters to exist forever any breach of the predefined will result in death at any stage if you walk when the body wants you to sit can result in death as well but this does not include endurance as endurance is automatically excluded as some people push themselves to the limit all predefined parameters cannot be adjusted after birth as the body

seals these forever so that no adjustments can be made but you can alter some height is a predefined parameters there is no person who grew taller after reaching limit but weight is not a predefined the reason is that everything else must change if height changes which is impossible

if we ask what can be of human with nickel the best as a medium of exchange but was removed because it became hard to find nickel after the second world war as some was burnt to make bullets but now could be enough to justify starting again humans can be told what to do without objections and can say what can be of them without issues humans can be anything they want to be what was humans can still be meaning even after another 18 billion years humans can still be humans the book of creation is the basis of all creatures all creatures have a chapter on the book of creation

I Represent YAHWEH On Earth.

Court of Creation on Earth

I summed up our finding about the whole saga in the book credible evidence to exonerate Alec Baldwin where I argued that all this killing of orphans and stealing their properties is

1. Abuse of Power
2. Harassment & Invasion OF Privacy
3. Illegal Collection of Capital Gains Tax Before Sale of Property

4. Targeting & Killings of Orphans
5. Illegal Spying Using Button Cameras
6. Killing the American Dream
7. Falsifying and Withholding Evidence.  
Abuse of power
