

LINCOLN _ SPECIAL MISSIONS UNIT IN THE EVENT OF TERRORIST ATTACKS Passed

WHEREAS, we have a large quantity of highly trained special forces and combat veterans in our state,

WHEREAS, terrorist threats exist due to the open border policies of previous administrations and as a result has let in at the very least, 1000 fighters for an imminent attack on our nation.

WHEREAS, our government has been reactive in the past and suffered for it (e.g. 9/11) when we knew there was a terror threat and did nothing. This cannot happen again. We should work to follow President Trump's example in working to create a more proactive government, and being prepared for anything, ahead of time.

WHEREAS, a well-equipped and highly-trained special missions unit could be a major lifesaving asset in our cities and towns, especially our understaffed locations.

WHEREAS, there will be a mass attack and should it happen it will cause mass chaos and confusion, thus resulting in a paralyzing effect on our ability to respond. It would be wise to train and organize for such an event to mitigate any overwhelmed emergency services.

THEREFORE, BE IT RESOLVED that the Lincoln County Republican Party urges the State Officials and County Sheriffs to act quickly and combine the resources necessary to form a Special Missions Unit(s) of volunteers to rapidly and effectively respond to any potential attacks in our great state of Wyoming.

Submitted by Michael Humphrey, Lincoln County Resident
