

## **RESOLUTION REGARDING INSURANCE FOR AGRICULTURAL PRODUCTS**

**Whereas** Wyoming has the gold standard in statute, permitting and protecting the sale of raw milk directly from producers to consumers.

**Whereas** Wyoming citizens are informed consumers and want unimpeded access to raw milk and healthy foods.

**Whereas** this access to raw milk and healthy foods is under threat and may be lost due to Wyoming farmers' inability to obtain insurance on their farming operations due to their production of raw products.

**Now therefore be it resolved** that the Lincoln County Republican Party urges Governor Gordon to work with Wyoming Commissioner of Insurance Jeff Rude to ensure that our Wyoming farmers are able to obtain affordable insurance for Wyoming agricultural products.

**Adopted by the Lincoln County Republican Party Convention, March 7, 2026.**
