Living Water Club

Simply put—Living Water is a superior quality water system with numerous health benefits.

People have reported a number of benefits including weight loss, improvement of skin conditions, reduced symptoms of digestive issues, increased energy, a radiant complexion, and rapid growth of hair and nails.

WATER ABSORPTION CAPACITY

Not all water is created equal, and most likely, the water you drink does not offer you proper hydration. Research finds your body only absorbs 15% of nutrients of tap or bottled water. Whereas Living Water is proven to have a 90% higher hydration rate than regular tap or bottled water.

To begin experiencing results, sign up to join the Living Water Club today!

Living Water memberships begin at \$50/month (Upto 3 Gal/wk)

One of the leading experts, , shares results from his clients who converted to Living Water:

“Clients experience faster results with weight loss, skin care recovery time, and other skin conditions such as acne, psoriasis and eczema.”

- Dr. Victor Rios

Whole Body Fat Reduction

- Latest patented, non-invasive technology
- Minimize trouble areas
- Experience additional health and beauty benefits
- Condenses fat cells
- Use stored fat as energy and shrink problem areas
- Lose inches

Whole body fat reducing treatment with focus on problem areas.

- Treatments can be performed up to 2x a day
- Results can be seen (and felt) after just a single session
- Each service is like a relaxing massage with health, anti-aging, and silhouette remodeling benefits
- It is renowned worldwide as the most effective cellulite reduction device

Each treatment performs several functions simultaneously:

- Skin is rejuvenated as collagen is stimulated and elastin fibers deliver an anti-aging effect on the skin (tremendous results reported of the face, neck, and decollete)
- Minimization of the lipids (fatty acids) from the fat cells
- Full body lymphatic drainage to eliminate toxins
- Improved circulation, muscle relaxation, and stress reduction

**Packages begin at \$499.

Body Composition Monitoring System

The scale is not a reliable measurement of what is actually occurring inside of our bodies. But thanks to advanced technology, you can accurately and scientifically assess and track essential health information with Color Vanity's full-body composition monitoring system.

While measuring and evaluating cellular health, this innovative device records your body's health levels:

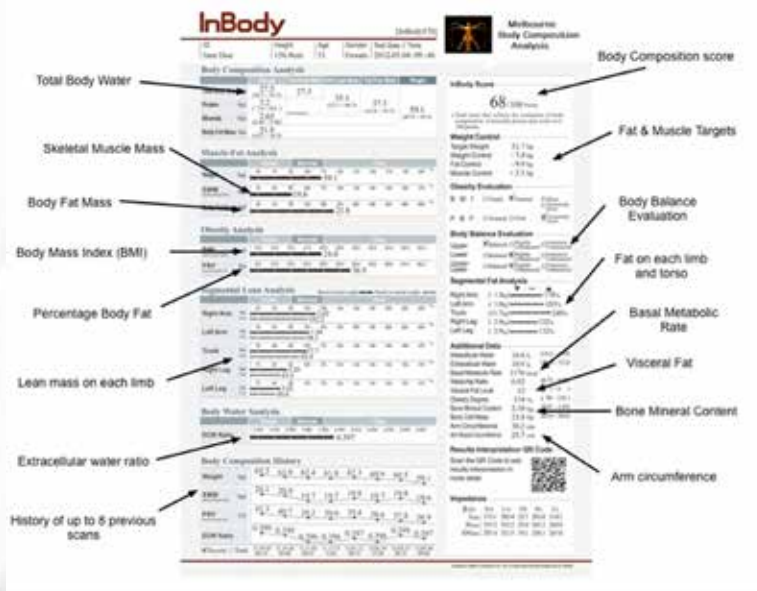

- Inflammation
- Visceral fat
- Excess water and fluid storage
- BMI

With these numbers, you can determine if you're experiencing signs of inflammation, overtraining, injury, and/or improper dieting by showing true muscle gain or loss through water and fluid fluctuations. Additionally, the report evaluates your body's cell health integrity, which can be an indicator of overall health at the cellular level. Since these figures usually decrease with age, it is imperative to monitor these levels to prevent aging and evaluate where and how to support your body through proper nutrition, supplements, water, and exercise routines.

Contact Color Vanity to arrange your body composition scan today.

Body monitoring scans are \$99/month or can be packaged

"I've always been a little self-conscious with problem areas on my body, mainly my legs.
