

Our practice will likely undergo further adjustments as we continue to try to ensure uninterrupted access to this important therapy. State guidance is constantly evolving.

NJMMP PROGRAM REVISIONS:

ALERT: NOTICE REGARDING NJMMP CERTIFICATIONS

We ask for your patience as we continue to navigate the continually changing directives so that we can serve those in distress and comply with state/national mandates.

For now, medical evaluation “rules” governing things outside of the “normal in-office visit” remain fluid and subject to future change.

The following will be in effect starting during first week in May 2021:

1. Recertification of our established NJMMP patient for **6-month periods through** our process: submit-review-evaluate & recertify form available on-line at our website. We will be arranging a connection with you via our telemedicine platform (Doxy.me) when required. Fee will now be \$118 PayPal or credit card for the six-month recertification.
2. Subject to future modification, we will require payment in full at time of evaluation **FOR ALL PATIENTS**.
3. New patients or transfers will be thoroughly and extensively evaluated and/or reevaluated. Virtual/video visit will be continued per State of New Jersey; initially established during pandemic related emergency circumstances. Fee: \$199.00 for initial certification for 6 months.
