

## MEDICAL RECORDS INFORMATION

We beg your patience as we are processing chart copy requests as quickly and carefully as possible. This task is monumental given the magnitude of the pandemic & the adversity this modest, independent practice was subjected to. Therefore, we cannot guarantee a specific time frame regarding entire record preparation.

Patients will be notified once their records are ready for pickup or transfer; Basic records release is available for download here on this website:

[parkprimarycare.org](http://parkprimarycare.org)

Please do not wait for your entire record to be ready to schedule with a new provider.

Any specific reports, labs, X-ray results can always be made available, transferred, or faxed over to the new requesting provider on a stat basis. We plan on maintaining and keeping our current lines of communication open into the indefinite future even though the office might be physically closed. We can then keep you updated as needed.
