

TAILOR-MADE PROCESS

Four Easy Steps

We craft range hoods, vessel sinks, bathtubs, countertops, backsplashes, vanity tops with integrated sinks, refrigerator panels, bathroom or kitchen sinks in 4 easy steps: 1) Dream, 2) Quote, 3) Order, and 4) Make

1

DREAM

The design process begins with you. Visit www.thompsontraders.com/custom and submit all the details of your project

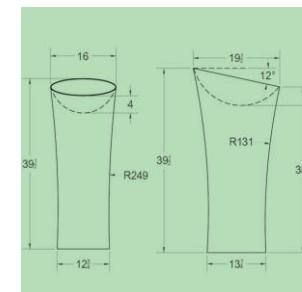

2

QUOTE

We will provide a quote for your Tailor-Made piece, usually within 48 hours. We will also clarify design details and answer any questions.

3

ORDER

The next step is to commission your bespoke piece of metal art by placing a purchase order. We will then create a technical CAD for your review.

4

MAKE

With your signature on the CAD, production will start. Just 12-22 weeks after you officially commission your piece, your Tailor-Made work of art will be delivered to you.
