With all of our heart.

FAMILY

Alejandra Ochoa de Thompson, founder and creative visionary of Thompson Traders, emigrated from Mexico to the United States at the age of 22 with her husband Clifford, her childhood sweetheart. Early in her career, she designed award-winning spaces for major department stores and hotels worldwide. Her daughter and Thompson Traders Marketing VP Samantha Thompson Lizarraga recalls in particular the larger-than-life magic of her holiday displays, including one featuring over-sized Easter Bunnies and eggs, which she created for the White House Easter egg hunt.

The awards and accolades for her accessories design were abundant, but Alejandra knew it was not meant to be her life's work. Every visit to Mexico reignited her love of copper arts and moved her closer to the goal of bringing the authentic beauty and craftsmanship of Santa Clara del Cobre to American homes.

Alejandra's dream became a reality a little more than a decade ago when she and daughter Samantha took the bold step launching Thompson Traders, a company whose portfolio features Alejandra's beautiful copper designs for the kitchen and bath.

LEGACY

On sunny days there is a distinctive orange glow around the town square of Santa Clara del Cobre, Mexico. It is the reflection from the copper wares hanging outside the shops, of the copper kettle suspended from the top of the kiosk that marks the town center and from the pillars, roofs and architectural adornments that pay homage to the town's livelihood.

"Cobre" means "copper," a name that is apropos given the history of Santa Clara del Cobre. The indigenous P'urhépecha, who inhabited the area beginning in the 14th century, were considered the world's most advanced metallurgists of pre-Hispanic times. Their sophisticated command of crafting tools and weapons from copper enabled them to defeat invading Aztecs. Although the P'urhépecha enjoyed access to copper mines in the nearby mountains, it was the abundant forests that provided fuel for smelting the ore, establishing a livelihood that would endure for centuries.

With a company-owned factory in this renowned copper-crafting town, Thompson Traders is part of the Santa Clara del Cobre community. Their hand-crafted products for the kitchen and bath bring the authentic copper legacy of Santa Clara del Cobre, home.

ARTISTRY

Masterful, meticulous, deliberate—these three words describe Thompson Traders coppersmiths. Each maker is a master craftsman in Santa Clara del Cobre, Mexico, an historic coppersmithing region. Each copper vessel is hand-hammered, creating a unique product that celebrates the area's legacy, expertise and artistry.

Thompson Traders coppersmiths dedicate hours, days and sometimes weeks to create one-of-a-kind vessels and finishes. Certain finishes, like antique satin gold are only obtainable by specific craftsmen.

The craftsmanship behind each Thompson Traders sink rests in the hands of its maker. Each a virtuoso and student of their Santa Clara del Cobre ancestors, they have honed their skills since the 16th century when the native P'urhépecha were considered the world's most advanced metallurgists of pre-Hispanic times. The human touch is evident in every hand-crafted Thompson Traders copper vessel, with each sink representing the skillful hands of its coppersmith. No two pieces are alike in outward appearance; however, each piece is unified through its craftsmanship—the intrinsic value unique to Thompson Traders.

THOMPSON TRADERS

True to the spirit of our ancestry we bring the allure of copper, home.
With all of our heart.

Custom Range Hood Collection

Thompson Traders transforms the highest-quality materials into one-of-a-kind designs for the home. And now, as part of our Custom Made offerings, we are pleased to introduce our custom range hood program - built to make it easier than ever and take your design from final drawing to completion in just 10 to 12 weeks.

If You Dream It, We Can Create It.

Four Easy Steps

1) Send us a sketch or image

Your inspiration will get us started on your bespoke range hood. We can manufacture virtually anything out of copper or brass.

2) Pick your finish and/or texture

Thompson Traders offers ten finished and eight textures. Choose an amazing finish and layer in one of our handcrafted textures for a piece all your own.

3) Pick your range hood insert

HOW TO CHOOSING YOUR RANGE HOOD INSERTS:

1. Identify how much CFM (power) you need. CFM is a measurement of power. It stands for "Cubic Feet per Minute". Our general guideline recommends that your CFM should be equal to 1% of the Total BTU output of your Cooktop. You should also check the CFM recommendation of your Cooktop manufacturer.

2. Identify what size hood your application requires.

Your range hood should cover the burners of your cooktop in order to be effective. Taking the width and depth of your Cooktop into consideration will help you choose the appropriate size range hood.

3. Identify what height Range Hood your kitchen can accommodate. We recommend mounting our hoods between 30" to 36" above the cooktop. Calculating the height of this distance above your cooktop will inform you of what height range hood will work for you.

4) Approve your final drawing and in 10-12 weeks receive your custom made range hood

The final drawing will be prepared by Thompson Traders only after having received a formal P.O. Allow 5 business days after sending P.O. to receive CAD drawing for your approval.

SINK REJUVENATION

COPPER CARE KIT

Our Copper Care Kit is designed to help you care for your handcrafted pure copper product. An extraordinary quality of copper is that it has a living finish or patina that will become more beautiful with age. When exposed to certain substances. Any type of acid including, but not limited to, tomatoes, lemon/lime juice, and some toothpaste can change the finish. The great thing about copper is that over time it heals itself and with use the copper will begin to return to its original shade. However, if you would like to accelerate this process we have created this Care Kit. The Care Kit includes: 1) Chocolate Brown Antiquing Oxidizer a brown-ing solution to fix lighter/shiny spots on your copper, 2) Wax to slow the patina process and protect the finish, and 3) a Micro Fiber blue cloth to use with the Wax. Please see price list for details on pricing and how to order.

WHAT IS A PATINA OR LIVING FINISH? The beauty of copper is its living finish or patina. It builds over time and works as a protective coating. The patina is a rich weathered finish with light and dark tones complementing each other and creating the unique effect of copper.

HOW TO CARE FOR YOUR COPPER SINK:

Wash with soap, water and a soft cloth or sponge. We recommended the following soaps: Dawn Ultra (Original Blue Color), Ultra Ivory Dish Liquid (Classic Scent White Color) and Palmolive Original (Green Color). Wipe off the surface to remove standing water, whitening tooth paste, acidic substances, etc. Acidic substances create shiny spots, yet over time copper heals itself and with use the color will begin to return to its original shade. For extra protection use a high quality carnauba wax (with no polishing agent).

NEVER USE anything abrasive like: Soft Scrub, Steel Wool, Chore Girl, etc.

NEVER USE the following products: Brasso, Clorox, Drano or Similar Products.

Acidic substances tend to leave shiny spots, like: Lime, Lemon, Tomato Juice, etc.

Polished Copper:

- These finishes will patina
- If you wish to slow the patina process, wax your sink. Use a high quality carnauba wax (with no polishing agent).
- If the patina grows too dark and you wish to restore the sinks shiny finish, use a copper polish like Wright's Copper Cream (Follow Wright's cleaning directions on how to use copper cream). Then re-wax your sink.
- **NEVER USE anything abrasive.**

Fired Copper - Black Copper - Antique Copper:

- These finishes will patina.
- Any spotting caused by normal usage will eventually fade back into the patina.
- To protect and slow the patina, use a high quality carnauba wax (with no polishing agent).
- **NEVER USE metal/copper polish on these finishes or anything abrasive.**

Black Nickel - Antique Satin Gold - Hammered Nickel -

Multi-Colored Sinks:

- This finish comes with a protective coating.
- We recommend you use a high quality carnauba wax (with no polishing agent) to protect the coating.
- The finish will not patina.
- **NEVER USE copper polish or anything abrasive.**

Thompson Trader's copper sinks are high quality, low maintenance and therefore, easy to care for. With proper care, your vessel will last for generations.

FREQUENTLY ASKED QUESTIONS

Why a Thompson Traders' Sink?

Thompson Traders has the widest copper sink selection for the best value. Our affordable pricing, stunning designs, superior quality and incredible customer support is what makes us leaders in the copper kitchen and bath sinks industry.

Why Choose Copper?

Copper will transform your ordinary kitchen or bath to a unique and inviting living space. It is easy to clean and maintain. Also, copper is a highly durable material making it a smart investment for your home because it will last a lifetime.

Are Thompson Traders Products Environmentally Responsible?

Thompson Traders is an environmentally conscious company. Copper is a recyclable material. Please see the front of the catalog for the section on Environmental Responsibility.

How is a Thompson Traders Sink Made?

Your basin is a true work of art. Using techniques brought over from Europe 500 years ago, skilled artisans carefully handcraft your sink. They begin with a piece of copper, heat it in a wood fired forge and hammer it until the desired shape is reached.

Can I Get Two Identical Sinks?

Your copper vessel is handcrafted, and no two are identical, however they are similar enough to put side by side.

FAQ

Does Thompson Traders Manufacture Custom Products, and How Do I Place a Custom Order?

Yes we can customize an order for you! We can create any tub, sink or countertop that you design. Simply contact your local authorized dealer or contact us directly to place your order at; phone: 336-272-3003, fax: 336-272-3014, e-mail: customerservice@thompsontraders.com or P.O. Box 7404, Greensboro, N.C. 27417.

What is a Patina or living finish?

An extraordinary quality of copper is that it has a living finish or patina that will become more beautiful with age. The patina is a rich weathered finish with light and dark tones complementing each other and creating the unique effect of copper. It builds over time and works as a protective coating.

What Materials are used in Your Vessels?

Your sink is crafted out of the highest quality 14 to 18 gauge solid copper. There is no lead or mercury of any kind present in our basins. Thompson Traders vessels come in 9 different durable finishes that are covered by our limited lifetime warranty.

What Type of Drain Do I Need...

For My Bathroom Sink?

Your bathroom sink comes with a matching 1½” grid drain with no overflow and a spacer ring. Spacer rings are frequently necessary for proper installation on thin metal sinks. We also carry 6 different finishes in grid drain styles. Please see the drain section for more information.

For My Kitchen Sink?

Your kitchen sink comes with a 3½” basket strainer and/or disposal flange.

How Long Until I Receive My Order?

We have the shortest lead times in the copper sink market. Stock orders are shipped within 36 hours of receiving your purchase order. Your sink will be on your front door in 5 to 7 days. If you need your sink tomorrow, we can accommodate your urgency. Some of our new designs have longer lead times. Please contact us for the exact ship date on new designs at;

MOUNTING OPTIONS

Partial Drop-in = PD

(2 to 4" partial drop-in recommended)

Vessel Mount = VM

Under Mount = UM

Drop-In = DI

BASIC INSTALLATION INFORMATION FOR ALL VESSELS

Thompson Traders' vessels offer flexible installation to compliment your personal style. Most of our sinks can be mounted several ways depending on the final look that you desire. We recommend a partial drop-in of about 2" to 4", other mounting styles are: vessel mount, under mount and drop-in. Due to the nature of our handcrafted vessels we do not provide templates and we strongly recommend not cutting the countertop until you receive your sink.

Thompson Traders, Inc. warrants to the original purchaser that Thompson Traders, Inc. will, at its option, replace, without charge, such product if it fails due to manufacturing defects for a lifetime of normal residential use. Product replacement does not include transportation cost or labor installation cost. This warranty covers under mount, drop-in, vessel mount, and partial drop-in, only if installed in a conventional countertop in residential applications. Thompson Traders, Inc. reserves the right to examine the product in question and its installation prior to replacement.

This warranty applies only to sinks:

- 1) Used only in residential applications
- 2) Which fail due to manufacturing defect
- 3) Which have not been moved from original installation location

This warranty does not apply to defect or damage caused by:

- 1) Failure to follow the recommended procedures for installation, care and maintenance
- 2) Tarnish and discoloration
- 3) Dents or scratches

Other Warranty Conditions:

Our warranty does not cover product failure or damage caused by abusive treatment,

WARRANTY & RETURN POLICY

misuse, environmental factors, improper care and cleaning, damage due to handling or faulty installations or claims of defect related to patina and discoloration. This warranty is extended only to the original consumer purchaser of the product. This warranty does not cover shipping costs, labor costs, or any other charges for such items as installation or replacement of the sink, diagnosis or replacement of any faucet or component part or any other expense or loss.

All incidentals or consequential damages are specifically excluded. No additional warranties, express or implied are given. Any implied warranty, including one of merchantability or fitness for a particular purpose, is limited to the duration of the written warranty.

Some states do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

THOMPSON TRADERS

True to the spirit of our ancestry we bring the allure of copper, home.
With all of our heart.
