

FINISH PROFILES

Our product finishes are carefully designed to complement both aesthetics and functionality. These finishes not only enhance the beauty of your product but also provide unique qualities in terms of maintenance and aging. The finishes are grouped into 5 categories (shown below) based on the care & treatment they should receive.

On the following pages there is detailed information about each profile as well as cleaning and care guidance.

<div><div>SEALED FINISH</div><div>Previously Lifetime Finish</div><div>Sealed finishes protect sinks, bathtubs, and hoods from tarnishing and corrosion, preserving their original luster. Hand-applied for unique character, they require minimal maintenance when cleaned with mild soap and water, regular carnauba wax, and avoiding harsh materials.</div><div><div><div>Matte Black</div></div><div><div>Black Nickel</div></div><div><div>Antique Satin Gold</div></div><div><div>Polished Nickel</div></div><div><div>Powder Coat, Color Match Available</div></div><div><div>Burnished Nickel</div></div></div></div> <td><div><div>RAW FINISH</div><div>Previously Living Polished Finish</div><div>Raw finishes are uncoated, allowing them to develop a natural patina or be polished for a more maintained look. Clean with mild soap, apply wax to slow patina, and avoid abrasives and prolonged contact with items that cause spotting. <i>*Raw finishes can sometimes be Sealed, please double check and verify the exact finish of your product.*</i></div><div><div><div>Polished Brass</div></div><div><div>Satin Brass</div></div><div><div>Semi-Satin Brass</div></div><div><div>Polished Rose Gold</div></div><div><div>Satin Rose Gold</div></div></div></div><td><div><div>EVOLVED FINISH</div><div>Previously Living Natural Finish</div><div>The Evolved Finish highlights copper's natural aging, forming a unique patina over time for a one-of-a-kind look. Self-healing and low-maintenance, it requires mild soap, regular wax, and avoiding abrasives and acidic substances.</div><div><div><div>Lived Copper</div></div><div><div>Patina Copper</div></div><div><div>Aged Copper</div></div><div><div>Custom Antiqued Copper</div></div></div></div><td><div><div>STAINLESS STEEL</div><div>Thompson's hand-hammered stainless-steel finish offers exceptional durability and conceals scratches, maintaining a sleek appearance over time. Clean regularly with mild soap and a soft cloth, dry immediately, and avoid harsh chemicals or abrasive materials to preserve its beauty.</div><div></div></div></td><td><div><div>NICKELED FINISH</div><div>Thompson's nickel-plated finish combines durability and elegance, offering a sleek sheen that resists corrosion, tarnish, and wear. Clean regularly with a soft cloth, mild soap, and avoid harsh chemicals or abrasive materials to maintain its long-lasting beauty.</div><div></div></div></td></td></td>	<div><div>RAW FINISH</div><div>Previously Living Polished Finish</div><div>Raw finishes are uncoated, allowing them to develop a natural patina or be polished for a more maintained look.
