

Algebra I School Supplies List  
Mrs. Michael's Class  
2018-2019 school year

To the Parents/Guardians of Mrs. Michael's Algebra I Class,

I would like to take this opportunity to welcome your child to high school and Algebra I. This year students will learn math skills necessary for graduation, college, and even for on-the-job skills necessary to be successful in the workforce. Students will need some tools to be successful in the course. Any help with providing the students with these tools is greatly appreciated. I am enclosing a list of items to be used in our classroom. The following items would be appreciated:

- 2 College ruled notebooks (for your student)
- 2 packs of number two pencils (for the class)
- 2 small packs of coloring pencils - please pencils, no crayons or markers (one for your student and one for the class)
- Ruler (for your student)
- Black Dry erase markers (for the class)
- 3 packs of Graphing paper (two for your student and one for the class)
- Tissues (for the class)
- Hand sanitizer (for the class)
- Loose-college ruled paper (for the class)
- AAA batteries for calculators (for the class)

Once again, I appreciate all of your help and support to the students. Please note, graphing calculators are available to students to borrow in class. The calculators will not be allowed to be taken out of the classroom. If your student would like to use his/her own TI-84 Plus calculator, please make sure their name is on the calculator with a permanent sharpie and the calculator is kept with your student. You may also download a free TI-84 Plus calculator to any electronic device at <https://education.ti.com>.

Thank you,  
Mrs. Michael
