INTERNET SAFETY AND ACCEPTABLE USE POLICY (AUP)

of Electronic Media

I. ACCEPTABLE USE: The purpose of Hancock County's Internet Safety and Acceptable Use Policy provision of access to the Internet is to support research and education in and among schools and academic institutions in the U.S. by providing access to unique resources and the opportunity for collaborative work. The use of your account must be in support of education and research and consistent with the educational objectives of the Hancock County School System. Transmission of any materials in violation of any U.S. or state organization is prohibited. This includes, but is not limited to: copyrighted material, threatening or obscene material, or materials protected by trade secret. Use for commercial activities by for-profit institutions is not acceptable. Use for product advertisement or political lobbying is also prohibited. The Hancock County School System will integrate Internet safety in the K-12 curriculum and instruction. Students will be given appropriate instruction in Internet safety as a part of any instruction utilizing computer resources. Students will be educated and monitored on appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response. Internet safety information will be provided for students, parents, grandparents, caregivers, and community stakeholders via the school system's website, www.hancockcountyschools.com, in order to raise awareness of the dangers posed by the Internet and ways in which the Internet may be used safely. Professional

development opportunities for teachers and staff will be provided for the school district. The Hancock County Board of Education will review, evaluate, and revise this policy biennially.

II. PRIVILEGES: The use of Hancock County School's network services is a PRIVILEGE, not a right, and inappropriate use may result in a cancellation of those privileges for faculty as well as students. The network administrator, Director of Schools, and school board will deem what is inappropriate use, take appropriate action and determine consequence. Also, the network administrator may close an account or deny access at any time as required. The Director of Schools and/or school board may request the network administrator to deny, revoke, or suspend specific user accounts.
