

SUPPORT - CARE- TRANSPORT - HEALING

Alexis Memory Lane, NFP

Alexis Memory Lane, NFP was inspired by a beloved Mother, Daughter, Sister, Aunt, and a host of many great titles to add to the list, who passed away from Acute Myeloid Leukemia (AML). Our mission is to support individuals battling cancer and/or any similar life situation by providing transportation services, safe housing, and community resources throughout their treatment and beyond.

FREE TRANSPORTATION SERVICES:

We provide wheelchair-accessible transportation for individuals in need of a safe and reliable way to get to and from medical appointments, treatments, and essential services. Our van accommodates up to 4 wheelchair users and 4 other passengers, helping those who would otherwise miss critical care due to a lack of access. This service is free of charge to qualified patients.

SAFE HAVEN CANCER CARE CENTER:

We are actively working to establish a residential -style center that offers temporary shelter for patients pre, during , and post treatments. This peaceful, fully accessible environment will provide a healing space for individuals who are facing housing insecurity, traveling for treatment, and in need of support away from home .

HOW CAN I HELP:

- * Make a one-time or monthly/annual donation**
- *Sponsorship**
- *Partnership**
- *Collaborate**
- *Volunteer**
