

Do you have Parkinson's Disease?

We are excited to connect with you!

Cala Health is a medical device company developing therapies that you wear. We are recruiting participants to test an investigational device used to provide symptomatic relief of hand tremors in adults with Parkinson's Disease.

Research Study Information

- 1. Participation in this study will last up to 6 weeks and is completely remote (no in person visits).*
- 2. You may be eligible if you are diagnosed with Parkinson's Disease, are over 22, have no history of heart disease or seizures, and have no implanted electrical devices.*
- 3. Participants will be compensated for their time.*
