

Hello Dance Families! I hope everyone is doing well.

Over the past few days, the teachers have begun creating their recital videos as well as uploading their recital music to our online parent portals.

*Please bear with us if you don't see your classes quite yet... the teachers are currently working to get the remainder recorded and uploaded but if you don't see your class by the end of this week, please reach out so we can ensure there isn't something missing!

How to access your online recital videos & music:

Log into your parent portal (dancestudio-pro.com/online/dancemovesmaine)

Under the **More** drop down menu, click **Documents & Files**

There you will see tabs: *Shared Files / Class Files / Class Music*

-Under the *Class Files* tab you will see recital dance videos the teachers have made for the dancers

-Under the *Class Music* tab you will find your recital songs

Additional class videos will be available to you soon!

Our teachers first priority was to get the recital choreography videos done and will be working on additional class videos to be shared with you soon.

Please stay tuned for more!

And don't forget to visit our webpage for additional activities and recommended online classes:
