Geometric Exterior Cabinetry

Tool-Free Cabinetry

Exterior Lighting

Low Profile for Easy Entry and Exit

Lounge Deck with SunCooler™ Cold Storage Areas

Options

EcoWrap® insulation

Cabinetry

Coastal

Mahogany

*Clean is defined as the removal of microscopic (down to 3-micron level, varies by model) debris from the water.

The ClearRay Active Oxygen® System utilizes various technologies to achieve cleanliness. One of them is ozone, which aids in the grouping of smaller debris to form larger clusters that can be more easily captured in the filtration process.

All hot tub dimensions are approximate, and shown in: LxWxH. Please see spec book for additional details.
