

## Testimonials

"We've been relying on Miracles Life Care for many years now. The beauty of their care is that it's customized specifically to my husband's needs and our household. Extra skill has been needed in caring for an indwelling catheter and a feeding tube for hydration and medication, which Miracles has easily provided. What works best for us is to have several experienced caregivers specifically trained for our needs because this provides us with continuity in our home. With Miracles we always have friendly, caring faces throughout the week. Not only does Miracles provide experienced caregivers, but each caregiver helps with household chores and other support functions allowing me to have more relaxed time to enjoy my husband."

- J.Mitchell Tucson, Arizona

"Many thanks to you and all the caregivers who have helped with Chip. They certainly made a BIG positive difference in his life."

- Ed

"I have got to say Rich, you get some of the nicest caregivers. You should be proud of your group. I hope you let them know that the quality of their work is obvious to someone like me who is in the industry. Cheers!"

- MetroMed

## Miracles Life Care

Serving Tucson and Surrounding Communities Since 2008.

Founded on the principles of Changing The Way We Care through compassion, kindness and understanding. Caregiving services with real know-how.

Miracles Life Care is grateful for the strong community network we have built with local entrusted physicians, hospitals, case managers and many other industry partners to fully support all of our clients needs.

## About Miracles Life Care

"Miracles Life Care started with an individual caregiver who has the highest of standards, years of experience, extensive knowledge, and whose gentle and compassionate approach created the foundation for 'Changing The Way We Care For Others...'

Specifically, by training new caregivers with the philosophies, ethics, and practices in which I demonstrated and amazed my clients with. Hiring one caregiver at a time to fill the referral demand, which gave me the opportunity to work closely with each caregiver, thus building a team of amazing, synergistic people that help our clients and help each other.

Since 2008, the core team is still with Miracles Life Care and they continue to groom new caregivers with the ethics, practices and philosophies that make our service stand out among all other caregiving companies."

-Richard Roberts, Founder
