Health Warranty

The puppy will be taken to a veterinarian within 5 business days of purchase and a written verification will be provided from the veterinarian stating the date of visit and health of the puppy. Without the verification letter the guarantee will be void. The health warranty will be for 2 years against hereditary or congenital defects. This will not include allergies of any kind, infectious diseases, and parasites as some of these are highly contagious and can be contracted by puppy immediately after puppy leaves ELFS care.

If for some reason a hereditary or congenital defect is diagnosed by a licensed veterinarian, the new owner must provide proof from said veterinarian. The new owner can then return the puppy and registration papers to ELFS at the new owners' expense for a replacement puppy of equal value when available or choose to keep the puppy as is. There will be no refunds or reimbursement for veterinary treatment or care.

Health warranty will be void if any of this contract is not followed by the new owner. This contract agreement with health warranty represents a binding contract that is understood and agreed upon by both ELFS and the new owner.
