Two topics were on the agenda, one of them was to get our toilets back to baseline with help from Pacific Plumbing company and second is to order a fridge to solve drinking water issue in front office.

Prior to meeting, we got email confirmation approving both items from following members:

During the meeting we received additional approvals from Dani McClure and Naomi Chavez, thus completing more than the 12 votes needed to approve.

The plumbing company belongs to an incoming 6th grader parent, and he is primarily charging for parts and most of labor is highly discounted. He has offered monthly services for our school as well if needed.

Steve mentioned that school will replace water filters in the new fridge. MMO will ask plumbing company to install water line.

Meeting was adjourned at 1pm.
