

About Us

Centrex Energy was born from the forward-thinking legacy of Centrex Computing Services, a leader in advanced computing and technology solutions. In a strategic move to broaden its impact, Centrex Computing Services acquired Meter Provida Limited—an industry leader in metering technology—laying the foundation for a new force in the utilities sector.

By combining Centrex's expertise in computing, data analytics, and field operations with Meter Provida's metering innovation, Centrex Energy has evolved into a comprehensive solutions provider for the utilities industry. Our integrated capabilities enable us to deliver cutting-edge products and services that enhance efficiency, sustainability, and innovation.

Centrex Energy is committed to transforming how utility businesses operate. With a strong focus on environmental sustainability and customer-centric service, we're building trusted partnerships across the industry. Our growing portfolio includes specialist metering services, locker networks, and streamlined online ordering and supply solutions—designed to help businesses run smarter and more effectively.

Please find below a selection of our core services and products, each tailored to meet the evolving needs of our customers!

If the specific service or product you require is not listed below, please do not hesitate to contact us to discuss how we may be able to assist or source a tailored solution to meet your needs.

WHY CHOOSE CENTREX ENERGY?

Our services are engineered to enhance operational efficiency, drive sustainable growth, and deliver exceptional value. Committed to quality, innovation, and customer satisfaction, Centrex Energy is your trusted partner in navigating today's competitive business landscape.

• BESPOKE TOOLING AND CONSUMABLE KITS

We design and supply custom-built metering tooling and consumable kits, precisely tailored to meet the specific requirements of each customer — ensuring optimal performance, efficiency, and value. Simply tell us what you need and we'll take care of the rest, delivering a complete, ready to use solution.

• ASSET REPATRIATION

Our Asset Repatriation services ensure that every product returns to peak condition or is responsibly recycled. We provide comprehensive testing and assessment in full compliance with industry regulations, maintaining the highest standards of quality and safety. Our professional cleaning, refurbishment, and repacking services extend the life of valuable assets, supporting reuse and reducing waste. Where reuse isn't possible, we carry out ethical disassembly and recycling, promoting a circular economy and helping our clients minimise their environmental footprint.

• WAREHOUSING AND LOGISTICS

Our secure facility offers storage solutions, ensuring critical inventory is always managed efficiently. In addition to storage, we deliver Third-Party Logistics (3PL) services, including inventory management, order fulfilment, nationwide distribution, and seamless returns handling.

• **REDETRACK APPTRAK**

Take control of your operations with the Centrex Energy RedeTrack APPTrak. Our intuitive platform empowers you to seamlessly purchase essential items while gaining deep insights into procurement patterns. Discover a smarter way to manage spending, enhance operational efficiency, and achieve significant cost savings.

• **TOTEBOX LOGISTICS**

We enable the secure, sustainable, and timely delivery of engineers' parts, consumables, and modules (PCM) for field-based activities. Our returnable Totebox system eliminates packaging waste while providing secure reverse logistics, safeguarding against stock loss and supporting your environmental goals.
