

# SECURITY TAPE FOR BAGS

In a rapidly changing business environment innovation is what makes the difference. Some suppliers wait for the customers to come up with the problems to find solutions.

Not us, our job as your innovation partner is to see evolution of your business and deliver solutions before you even though you'd need them.

Whether it is to improve the tamper evident technology of your security bags, boost your operational efficiency, or complete with lower prices; our security bag tapes help you maintain a leading edge over your competitors.

Our proven track record includes being the first to bring thermochromic ink to the market, develop tamper-evident tape that voids at all temperature include water soluble ink directly on the adhesive, develop easy to fold silicone liners, and produce longer length rolls.

*Fully customized, our security bag tapes aim to stimulate market demand and create new pockets of growth. For you and your customers.*
