## About the Designer

### Adrienne L. Watson

Gardening has been part of my life since the age of seven, when I first discovered the joy of nurturing living things and shaping outdoor spaces with my Mom. Today, as a certified Texas gardener and nursery professional, I bring decades of hands-on experience to every project. My background as a professional artist deeply influences my approach—each garden is treated as a living canvas, where color, texture, form, and movement come together with intention. I design with an eye for beauty, a respect for nature, and a commitment to creating spaces that feel both personal and inspiring.

# Garden Installation Packages

Every garden I create is designed to be both beautiful and meaningful. It is a space where nature, creativity, and purpose come together. With over 45 years as an artist, I approach each garden as a living work of art, thoughtfully designed to bring peace, color, and life to your outdoor space.

## **CUSTOM GARDEN DESIGN**

Every garden is thoughtfully designed to fit your space, lifestyle, and vision. Each installation is planned to create beauty and balance.

## **PROFESSIONAL INSTALLATION**

Your garden is fully installed for you from soil prep and raised beds to planting and finishing the details; so you can enjoy it without the stress.

## **ARTISTIC & MEANINGFUL**

With over 45 years as an artist, each garden is created as a living work of art. Optional custom garden art makes each space unique.

Whether you want to refresh the front of your home, grow fresh herbs, or create a peaceful biblical-inspired garden, each installation is customized to fit your space and vision. My garden packages provide a clear starting point while still allowing room for personal touches, decorative elements, and artistic features that make your garden unique.

*These are the three core garden installation options, along with optional upgrades that can further enhance the beauty and function of your garden.*

# Biblical Garden Sanctuary

Throughout Scripture, gardens are places of encounter: Eden, Gethsemane, resurrection morning.

A Biblical Garden Installation integrates symbolic plants and thoughtfully chosen Scriptures to create a space of meditation and spiritual anchoring.

This is a living expression of Scripture for homes, churches, and ministries.

**Residential: \$3,500 – \$5,000+**

**Church/Organization: \$5000+**

Includes: Concept consultation, Scripture - 7 integrated herb selection, 5 symbolic flower selection, customized Scripture, optional dedication ceremony (with speaking engagement for churches and ministries). A 50% design and installation retainer secures your project date.

# The Garden Renewal Collection

Outdoor spaces often mirror the seasons of our lives. When beds become overgrown or depleted, renewal becomes necessary. The Garden Renewal Collection is designed to restore visual harmony while honoring the deeper symbolism of tending what has been entrusted to us. For homeowners seeking refined curb appeal or renewed outdoor beauty.

**Investment Range: \$1,500 – \$3,500+**  
**Quarterly Refresh Option: \$300–\$500 per visit**

Includes: On-site consultation and/or spiritual design intention, curated plant palette for North Texas climates, soil enrichment and bed preparation, layered installation, seasonal color and flourishing strategy, and a printed care guide. A 50% design and installation retainer secures your project date.

# The Signature Herb Garden Experience

Herbs have long symbolized healing, nourishment, and sacred remembrance. Whether culinary, medicinal, or devotional, your herb garden becomes both practical and meaningful; a daily invitation to steward and savor.

**Investment Range: \$1,500 – \$3,000+**

**Quarterly Refresh Option: \$300–\$500 per visit**

**A 50% design and installation retainer secures your project date.**

Includes: Custom design layout, choose up to 3- 4x4 raised beds, 2- 10-gallon planters, or all in-ground installation, soil preparation and amendment, curated herb selection of 7 herbs, printed care guide, and a 30-day follow-up visit.

- OR
- 3- 4x4 Vertical beds
- OR
- 6- assorted pots for patio
- 7 herbs
- Printed care guide
- 30-day follow-up visit

# Custom Add-On's

Garden structures add both function and visual interest to your outdoor space. These elements help define the layout of your garden while supporting plant growth and creating inviting areas for relaxing and enjoying nature. From raised beds and planter boxes to trellises, these additions help organize the garden.

Decorative accents bring personality and charm to a garden space. These elements help transform a simple planting area into a welcoming and peaceful outdoor environment. Items such as decorative pots, wind chimes, garden lighting, seating, and outdoor rugs create warmth, comfort, and visual beauty.

Landscape features help shape the structure and flow of the garden while improving accessibility and usability. Pathways, gravel areas, borders, and additional planting spaces create a balanced design that connects different parts of the garden together. These features add texture, organization, and durability while enhancing the natural beauty.

# Custom Add-On's

# Garden Layouts

## Small Backyard

Even a small backyard can become a beautiful and functional garden space. These layouts are designed to make the most of limited areas by combining raised beds, planters, pathways, and decorative elements in a balanced way. With thoughtful design, small yards can include herbs, flowers, seating areas, and relaxing spaces that feel both open and inviting.

## Patio Garden

Patio gardens transform outdoor living spaces into vibrant extensions of your home. Using planter boxes, decorative pots, vertical growing options, and carefully placed seating areas, patio layouts create an atmosphere that blends beauty with comfort. These gardens are perfect for growing herbs, flowers, and small plants.

## Raised Bed & Planters

Raised beds and planter boxes provide an organized and attractive way to grow herbs, vegetables, and flowers. These layouts are designed for easy maintenance, healthy plant growth, and visual appeal. By combining raised beds with pathways, trellises, and decorative containers, these gardens create structured growing spaces that are both practical and beautiful.
