

ADJUSTED TRYOUT TIMELINE DUE TO COVID-19

April 22nd, 2020

Due to these unusual times that we are all going through the traditional tryout window will no longer be feasible. **As a reminder the IYSA Poaching Policy is still being enforced.**

Each district within in our state is unique and so even though the following represents the States timeline for our member clubs, each district may decide on a different timeline if it is agreeable to each member club within that district. Districts that wish for a different timeline may consult with their IYSA District Commissioner.

- Clubs may **ONLY** have their currently registered (Aug 1, 2019 - July 31, 2020) players/families offered spots and/or register starting Monday - **June 8, 2020**
 - It must be made clear to any player registering that should they wish to cancel that registration they may do so up until the official signing period on **July 6th, 2020**
 - Contact initiated by the club staff, parents or any representative with another organization's registered player/family prior to June 29, 2020 **is considered an IYSA poaching violation.**
 - Registration of a player prior to the June 29, 2020 tryouts who **IS NOT** a current member of the organization/club **is considered an IYSA poaching violation.**
- Tryouts may begin **Monday June 29th, 2020**
 - It must be made clear to any player registering, should they wish to cancel that registration they may do so up until the official signing period on **July 6th, 2020**
- The signing period is **July 6th 2020**, at this time any previously signed or new registrations will be considered committed **once those players have been submitted to IYSA.**

Note : *Please make sure that your registration forms have a statement that reminds players they are committing for the entire 2020-2021 seasonal year. Without that statement it leaves it open for players to claim they did not know they were committing for that length of time.*

During this whole process it is important to emphasize that all players are still committed to their current organizations until the end of the seasonal year which is **July 31st, 2020** but can still tryout for others on the tryout week.

In the event that we may not be out of the current emergency measures by June 29th or we are restricted due to any mass gathering limitations, IYSA will re-evaluate the situation and adjust accordingly.
