

# History

# Founder

Co-Founder C of L Tech  
Network Services, Inc. C1959733

1996 – One of three founders

- Co-Founder A  
Low Voltage Contractor  
Fellow Architect
- Co-Founder B  
Mentoring &

Opportunities - Infrastructure Sales

## Top Three Achievements

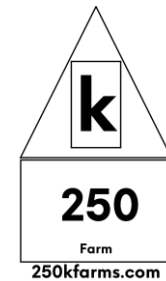

- Revolutionized Quoting and Delivery of IT Services
- LA County Hospitals (5) 1st EAP Protected Roaming Wi-Fi Networks
- 1<sup>st</sup> Wi-Fi Active Roaming Heatmap Technology

2011 – 100% Divestiture

# 250kFarm.com, LLC

A Technology Incubation Services Company.

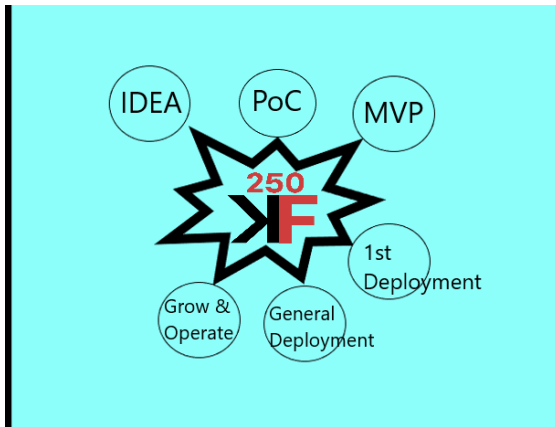

Our Brands

250kFarm.com, LLC

338 NW Valencia Rd.  
Melbourne Florida 32904

## Mindful Mentoring Services

- Initial Development Funding
- ITIL
- Wi-Fi6 - 6e – WPA3
- Trouble Isolation
- Team Leadership

## A New Type of Thinking

Wi-Fi 6 and 6e requires a new technical look. No longer is co-channel interference a challenge? This is one of several subjects your architects will be challenged to view from multi-angled Mindful experiences.

## Contextual Troubleshooting

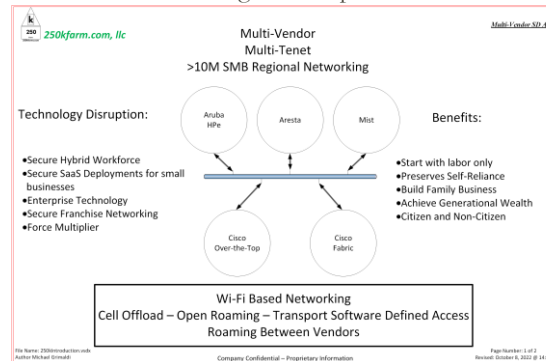

The “Promise” of “AI Fixing” the network is not yet achieved. We do have probes to assist but...; probes report the result not the cause of issues. Thankfully, we still have Human Intelligent Troubleshooting (HIT). Your Technology Architects will learn to use:

- Failure Interpretation
- Client Session Analysis
- Differential Valuations
  - Network vs Supplicant capabilities
  - RF Interference
  - Incorrect WLAN options
  - Sticky Clients vs Protocol Failures

## Multi-Vendor SD-WLAN

250k farms.com provides key technologies enabling the ability to build multi-vendor networks that can separate devices into virtual networks using multi-vendors hardware.

SD-WLAN – SD-LAN - SD-WAN.  
Vendor Agnostic Operations

## Franchise Capacities

- 4M End User Devices
- 3000 Virtual Networks
- 30 Points of Presence
- Disaster and HA Redundancy
- IPv6 Ready

## The Franchise: GigWorkerSecurity.com

a State Based Professional Association of Entrepreneurs

- Family Based Business
- Generational Wealth
- Equity = Level Playfield ability to convert talent into income
- Sole Proprietorship to C Corp
- U.S. Citizen and Non U.S. Citizen

## Key Technologies

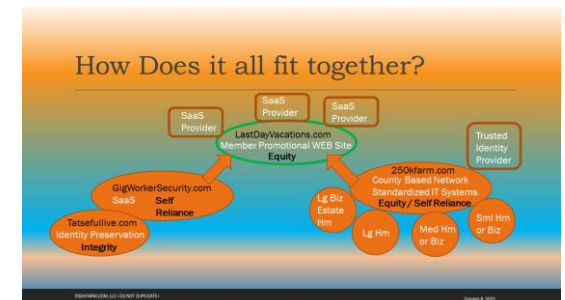

1. Wireless Services Gateway Architecture
2. Vendor interoperability of software defined transport policy exchange.
3. Transport Policy Core Definitions

250kFarm Technology provides:

- Licensed Foundational Knowledge
- Standards Documents
- Lab Validation Designs
- Procedures MOP Reviews
- Multicast Direct Services Bonjour - MOH -- Entertainment
- Develop your Network Architecture Talent: USA - UK -EU -AE - Mexico - Philippines - India

## Our Technology is Franchising

IaaS (Infrastructure as a Services) provides the ability to combine security and virtual networking to the Global SMB market. Customers of Franchises will be freed from technology to pursue profitable skills. The Licensed Virtual Infrastructure: IaaS monetizes SaaS for Franchises.
