

BLACK MOUNTAIN

Expeditionary & Rescue Medicine

AUSTERE 7 DAY WILDERNESS FIRST RESPONDER COURSE

Located at the South end of Mirror Lake in Bonner County Idaho, this seven-day Spring Camping and Educational Opportunity is not to be missed!

Shake off the Winter lock up, come join us for an early Spring Camp Out. Make some new friends and receive entertaining and high-quality Wilderness Education.

This remote location will envelop and challenge participants in the true meaning of Remote & Austere Medicine!

For those of you who are current EMS providers (all levels) this course offers 60 hours of CEU's through CAPCE!

If you have a significant other who would like to hike and explore the region during the day, bring them along! There will be an additional logistics fee for their meals and camp use (I do expect them to be a victim at some point)

This Austere Style course is designed to envelop the student in the Wilderness Environment. Classes will be held in a camping venue, lectures will be delivered in a (kinda heated) walled tent, so dress for the weather, we will be training outside regardless, so be ready.

Black Mountain Expeditionary & Rescue Medicine delivers the Globally recognized Wilderness Medical Associates International Curriculum, you can view their history at www.wildmed.com

Course registration, directions and specific questions can be sent to info@blackmountainrescue.com
