

Functional, Design-Forward Solution – Horizontally suspended panels enhance both aesthetics and acoustics while maintaining a fully accessible ceiling.

Excellent Fire Safety – Rated Class A for flame spread performance.

Sleek, Sustainable Finish – Smooth surface made with 34% recycled content.

Flexible Design Options – Use individually or in grouped layouts to define open spaces or zones.

Superior Sound Control – Made from high-NRC (0.90) materials, delivering up to 1.20 Sabins per square foot of absorption.

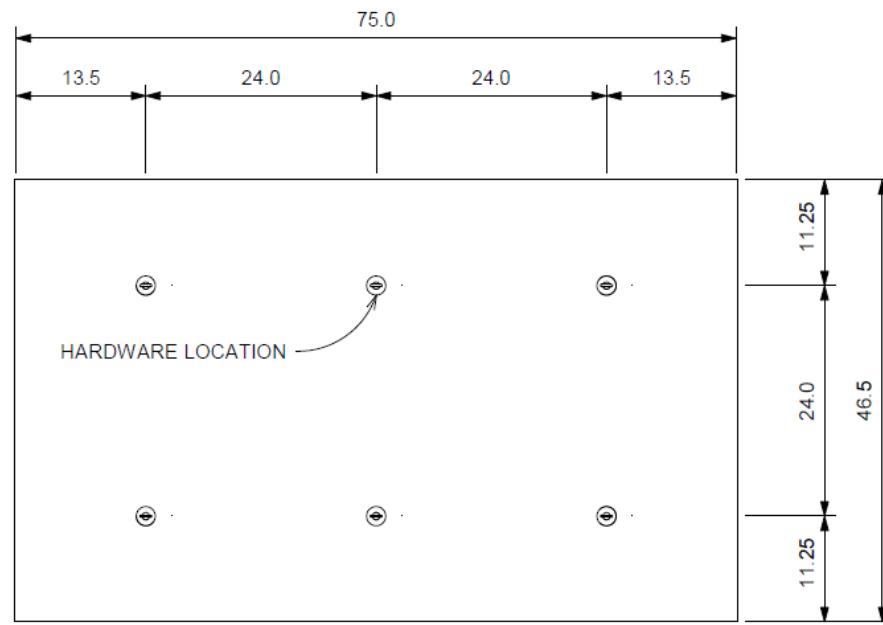

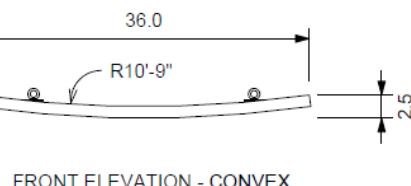

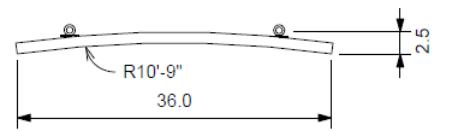

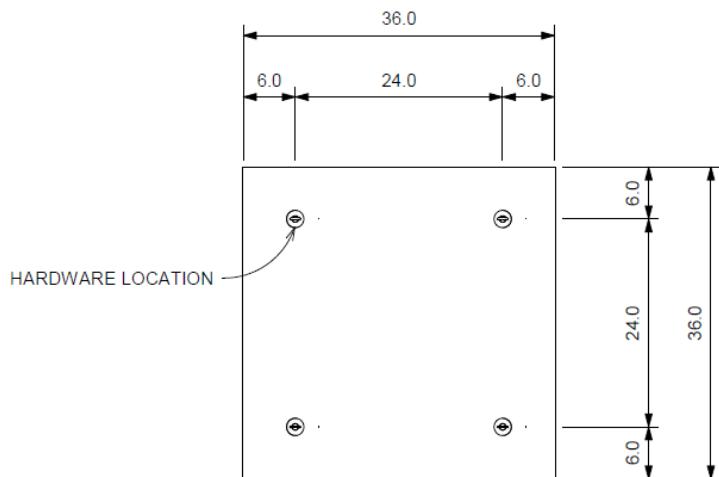

Dual-Sided Absorption – Can be suspended at varying heights and angles to optimize sound control on both panel faces.

Color Versatility – Choose from standard color selections or request a custom color.
