CUSTOM SCORED CEILING PANELS

Scored mineral fiber ceiling tiles with continuous geometric patterns designed for standard T-bar grid systems.

Suspended T-bar ceilings are commonly specified for cost efficiency and sound absorption, while offering limited visual expression. Custom carved ceilings introduce continuous geometric designs that align across panels in both directions.

- Provides sound absorption
- Lightweight installation
- Balances design impact and cost efficiency compared to open plenum solutions
- Custom sizes and colors

Pattern DE-020 shown
Substrate: USG Astro

<p>KEY ATTRIBUTES</p> <ul style="list-style-type: none"> • Thickness: 5/8", 3/4" • Sizes: 2x2, 2x4, Custom • Grid compatibility: 9/16" or 15/16" • Material: Mineral fiber • Color: White, Standard, Custom • Acoustic: NRC = 0.50, 0.70 • Fire Rating: Class A 	<p>APPLICATIONS</p> <ul style="list-style-type: none"> • Restaurants & hospitality • Commercial office • Healthcare • Educational facilities • Exposed structure ceilings • Retrofit acoustic upgrades
<p>DESIGN IMPACT</p> <ul style="list-style-type: none"> • Continuous patterns reduce the visual rigidity of T-bar grid • Maintains sound absorption and budget efficiency • Compatible with standard grid systems 	<p>AVAILABLE OPTIONS</p> <ul style="list-style-type: none"> • Stock geometric patterns or custom designs • Colors: White, Chroma Collection standards, or custom colors
