Thank you Frank. We certainly appreciate your time and the receptiveness that Art and all your staff have consistently shown in meeting with us. We have all been impressed with the professionalism of you staff. I understand that meetings have concluded, but understand that information can still be passed to the commission and staff until final hearings - though as Christine has said, the sooner the better. If this is not correct please let me know. We too want the pieces put together -- and in the right places. Thanks for your help. Bob

Sorry Bob - Meetings with staff are over for obvious reasons and as announced by the Chairman. We certainly appreciate all you and other communities have passed us in the last few months but it is time for staff and Commissioners to put together the pieces and prepare for final deliberations. We have a little over a week to go. I happened to be on the Hill and available to swing over for the lunch meeting and be with the Commissioner without impact on our crunch time and have passed along the letter.

Christine can fill you in on details.

Frank

Subject: Meeting with General Loh

7/20/2006

As follow-up to today's meeting with Commissioner Skinner, Senator Thune requests, if possible, that a meeting be set up with BRAC staff so that General Loh can come in to discuss several critical issues that we believe still need to be clarified. Would there be a suitable time and appropriate staff available next Thurs or Friday, or the following Mon or Tues (22d & 23rd). He knows your schedules are greatly constrained as we enter the final stretch, but he feels this is critical before final deliberations. Thank you.
