**Subject:** RE: TEXAS MOA

**Follow Up Flag:** Follow up  
**Flag Status:** Red

Bob,

The information should be posted within a day or two. The name of the ATCAA (Assigned Traffic Control Airspace) is called Pyote. We are in the fact finding mode as well. We are trying to find out, its status (not listed currently), its vertical and horizontal limits, etc.

Art, good meeting today. Thanks again for your time. Can you direct me to the date of the USAF ROD and the approved EIS on that new MOA you showed us on the map in southwest Texas; or where I can find a copy? When do you think those documents (maps, etc), provided to the commission during your Dyess site visit, will be posted to the BRAC website library?
