AZOTH PRODUCT READINESS REVIEW

Sharper Product Decisions. Clearer Market Fit. Stronger Growth Signals.

Need fast, strategic clarity if a product is scalable, win markets, or raise capital?

Azoth Product Readiness Review decodes product reality — architecture, UX, economics, and scale signals — fast and sharply.

We don't audit code — we audit the product's ability to scale, win markets, and survive investor scrutiny.

Architecture → UX → Market Fit → Commercial Logic → Scale Potential

● WHO THIS IS FOR

Founders	Growth Teams / CXOs	Investors (VC/PE)
refining product market-fit, moat, roadmap clarity	seeking a fresh, external product lens for scaling	Quick, reliable product signal before deeper diligence.

We fix weak stories, flag fragile products, and validate what's truly ready.

● WE EVALUATE

- **Architecture:** scalability, robustness, integrations
- **UX & usability**: friction, adoption, workflow clarity
- **Product–market signals**: ICP fit, momentum, user logic
- **Commercial logic**: pricing, margins, unit economics
- **Scale readiness**: tech debt, roadmap, GTM alignment

This is not a technical audit, but trusted **business, product & scale-readiness audit**.

● WHY AZOTH

Product intelligence + architecture insight + AI pattern analysis + commercial clarity — revealing what's truly scalable. **Fast. Sharp. No jargon.**

● WHAT YOU GET

Product Readiness Score (0–100)

Signal Map: Strengths → Risks → Break points

Commercial + architecture narrative for investors

Fast recommendations to strengthen readiness

● WHERE THIS HELPS

- Pitching to VCs/strategic investors
- Scaling from MVP → PMF → Growth
- Planning product roadmap
- Entering GCC/US markets
- Validating product economics

Complete Clear view of today's product & how far it can realistically scale
