

Evil in the world

THE CONSORTIUM was created to manipulate humans and promote evil among them. One of the most important divisions of the powerful company is the FARM. This division is responsible for causing a constant increase of evil in the world. Evil incites human pain and causes the production of the Neuropsina protein. This protein is linked to negative energy and is the raw material to produce the desired drug Neu. The FARM, in addition to fomenting evil, has the task of collecting negative energy and then processing it. The result is the drug Neu.

The preservation of evil, for these hellish creatures, is the reason for their existence. The mere fact that the possibility that the evil diminishes exist, creates panic in THE CONSORTIUM. Therefore, the issue of tithing has caused such a stir among the management of the powerful company. The issue brings legitimate concern, because as good increases, evil decreases.

Credit must be given to the DC (deceive and confuse) division for its excellent job in confusing Christians. Using thick smokeballs, they have managed to distort reality. Many, by mistake, think that tithing benefits the recipient. It's not true! Tithing benefits those who give it. It is written:

"You must each decide in your heart how much to give. And don't give reluctantly or in response to pressure. "For God loves a person who gives cheerfully. (2 Corinthians 9:7).

The management of the powerful company knows very well that it is not the amount that is "given" that impresses God, but the attitude with which it is "given".

The twelve members of the High Council, who are sitting on the stage, look worried. The doctor's report is alarming because it reveals an imminent danger. Most of the demons mock tithing and

consider it harmless. Nose Nada's report reveals the truth: The "tithe" is intended to promote the power of generosity. The doctor placed the report on the podium in front of him and in a slow tone said:

“The smokeballs... have managed to... hide the "key" of tithing.”

The graduate, wishing to change the subject, was forced to ask:

“What is the key to tithing?”

The doctor with hatred revealed:

“The key to tithing is to give with joy.”

The evilest of all of them, a little confused with the concept of tithing, asked:

“What is the danger of tithing?”

As explained by Nose Nada, the best way to understand the "danger" of tithing is to visualize it with the action of sowing. The GREAT BOOK says:

Remember this: He who sows sparingly will reap sparingly; and he who sows abundantly will reap in abundance" (2 Corinthians 9:6).

In the Room of Hidden Secrets, moods have turned aggressive. The applause turned into boos when the doctor revealed the danger entailed in the virtue of "giving" (tithe). What frightens THE CONSORTIUM, is related to the protection of God. Is activated for those who mix; the virtue of "giving," with the virtue of "practicing justice" and the virtue of "love God." The GREAT BOOK confirms this:

"For the Lord loves righteousness and does not abandon those who are faithful to him. The Lord will protect them forever, but he will destroy the offspring of the wicked" (Psalms 37:29).

The investigation carried out by the doctor among the different polytheistic religions has not contributed to the answers of the four questions. Faced with this reality, the doctor said:

“I decided on a change of strategy.”

Showing genuine curiosity, the attorney asked:

“What was that change?”

Instead of investigating all the polytheistic religions in the world, he decided to travel to the past, and get to know the first polytheistic civilizations in the world. The Sumerians and the Egyptians! It is during this trip, to the past, that they discover valuable information about the pouring that occurred. The doctor and his assistants visited the "Sumerians", as observers. The first group selected were the Sumerians:

"Why did you visit the Sumerians?" the attorney asked curiously.

"Who...?" the doctor asked, as he placed the horn in his ear.

"The... Su... me... rians," replied the attorney, spelling the word.

"Ahhh... the Sumerians... they are... the first known civilization in the world."

According to THE CONSORTIUM, the Sumerian people were created by the god Anu. A god with lowercase "g", recognized by the powerful enterprise, as a hero. The god of the Sumerians is considered an important champion of darkness! One of the most respected defenders of "evil" in the kingdom of Darkness. The most intimate call him An (Anu): a POWER considered the "god of heaven." His portrait is in the Hall of the "Titans".

Those attending the meeting applauded with enthusiasm, because they are proud of the main god of the Sumerians.

"The benevolent and compassionate god Anu came from heaven!" replied Nose Nada.

The legend of the Sumerians points out that the gods of the Sumerians came from heaven. A manipulated truth, with the intention of confusing many. Scientists who study the history of humans through their remains, such as bones, tissues, ceramics and tools, among other resources, have confused the word "heaven" with "planets." When Sumerian history points out that Anu came from

heaven, it is not referring to another planet, but to a spiritual dimension identified as the "second heaven" (Note 1:1). The doctor highlighted:

“The Sumerians... stood out in the history of humanity... thanks to their "gods".”

Among their great achievements is the wheel, with which they revolutionized transportation and wars. Another of his great contributions for the benefit of humanity is writing on clay tablets (mud). It is known as "cuneiform writing", because of the use of a wedge to write in the clay. The list of contributions to humanity is long. Some of these contributions are the cities (the Sumerians formed the first cities), written laws, medicine, sexagesimal system, bricks with adobe and the use of the arch in its architecture. The doctor proudly stated:

“The CONSORTIUM is responsible for the prosperity achieved by the Sumerians.”

These words motivated an explosion of applause from the guests at the meeting.

In the section classified as private in his report, the doctor pointed out that the gods with lowercase "g" intervened for the Sumerians to prosper materially, although on a spiritual level they were bankrupt. These people are a good example of what happens when the one and only true God is not present. The Sumerians achieved enormous prosperity, but they dissipated in history. In the report, he presents the Jewish people as a contrast to this truth. These people identified as the Jews; they did not achieve a fraction of the prosperity that the Sumerians achieved. Unlike the Sumerians, who were bankrupt on a spiritual level, Jews are billionaires on a spiritual level. The Eternal God is responsible for the fact that the Jews continue to shine in history, and their future looks bright.

The working group, which accompanied the doctor, carefully reviewed the history of the Sumerians. The results were

discouraging, because they discovered that the Sumerians do not have the answers to the four questions they are looking for.

From the stage, where the twelve members of the High Council are, the evilest of all of them asked:

“What did you do after discovering... that the Sumerians... don't have the answer to the questions?”

The doctor showed a wide smile and said:

“We focus on the Egyptians.”

The enormous achievements made by the Egyptians overshadowed the Sumerians. This fact serves as evidence, to highlight that the gods with lowercase "g" of the Egyptians were more powerful than the Sumerian gods. Among the Egyptians great achievements is the 365-day calendar, which follows the movement of the sun. This contribution, which requires extensive and wide knowledge in astronomy and mathematics, benefited humanity.

Another of their great contributions was the creation of the paper. This invention revolutionized the world! Since then, written material has been easy to transport and store. The high level of wisdom exhibited by these people can be seen in the technique used to embalm their dead (mummies). It is something so spectacular that today it continues to leave many in awe. Pyramids are a symbol of superiority that impressed in the past and continues to impress in the present.

All the above exalts THE CONSORTIUM and speaks very well of the gods with lowercase "g" who controlled Egypt. During his investigation, doctor Nose Nada discovered a chilling secret related to the ten plagues. The fact that the truth related to the plagues comes to light; it scares, frightens, and terrorizes the members of the powerful enterprise. The mystery has to do with their main objective.

The plagues were not sent to punish the Egyptians!
