

We're in Trouble!

The third management level of THE CONSORTIUM is known as “lower management” and is composed of “Powers”. The walls of this reception room are full with up-side-down crosses of all sizes. Huge statues in white marble, representing horrible entities, decorate the dark room. All the sculpted figures are deformed, some of them have the faces of animals with a human body, others have a human face with an animal body. They all have in common an evil look in their eyes.

As soon as the elevator doors opened... doctor No-No... entered the elevator. After exchanging a few words with the Advisors who were there... he said in a... gloomy tone:

“The "great and terrible day" is coming”.

The reaction to these words was different for the three Advisors. It doesn't mean anything to the philosopher or the engineer, but to Odeim... it was different. These words caused him anguish and serious concern. The vast majority of the demons are unaware of the implications of the "great and terrible" day. Among that huge group of ignorants was Attorney Odeim, but everything changed after meeting Dadlam.

In the Empire of Darkness there is an ancient legend that speaks of the "great and terrible" day. No demon, who respects himself, pays attention to this legend. Upon his return from the Garden of Wisdom, Dadlam brought evidence that that horrific day is going to happen in the near future.

During Dadlam's trial, Attorney Odeim was classifying the documents brought from the Garden of Wisdom. Unexpectedly, Odeim stumbled upon the truth related to that alarming day. It's going to happen very soon!

Inside the elevator, Odeim stopped hearing the Advisors, and his mind traveled through time.

Before his trip to the famous "Garden", Dadlam mocked the legend, but this stopped when he discovered the two ancient scrolls. I'm talking about a couple of old rolls of animal skin, where some disturbing words are written. The first scroll belongs to the prophet Malachi, and it says:

"The LORD of Heaven's Armies says: The day of judgment is coming, burning like a furnace. On that day the arrogant and the wicked will be burned up like straw. They will be consumed... roots, branches and all."
(Malachi 4:1 NLT).

The evidence collected confirms that, on that "great and terrible day", the wicked will have problems. If they are in difficulty, THE CONSORTIUM is in serious danger. Talking about the wicked, it is synonymous with evildoers.

Today the term devil refers to evil and very ugly spiritual entities. In the past, the term referred to intelligent spiritual creatures. The demons that control THE CONSORTIUM are intelligent, arrogant, and evil. The second scroll speaks of two words, very offensive, for any demon. Those words are simpleton and fool. The second scroll reads:

«Only a simpleton would not know, and only a fool would not understand this: Though the wicked sprout like weeds and evildoers flourish, they will be destroyed forever. But you, O LORD, will be exalted forever». (Psalms 92:6-8 NLT)

Most of the demons are unaware of it, but the "great and terrible day" is a reality and is coming.

As the elevator went down, Odeim remained silent. Once again, the automatic hydraulic brake system came into action. The cabin slowed down and gently stopped in the reception room of the "Forces of Evil". These demons are the Foremen of the company and belong to the heavenly regions. A strong and disgusting smell of sulfur entered the elevator, combined with the unpleasant stench, produced by a rotten egg. This strong tuff is considered by associates and the rest of humanity as a plague, but for the inhabitants of

darkness it is a pleasant fragrance.

The fifth ADVISOR, the scientist Todoes Casualidad, whose nickname is «Happenstance» entered the elevator. His white robe that reaches his knees and his bald head, gives him an air of a wise person. Unlike the demons, who are in the elevator, he was Dadlam's personal friend. His friendship ended when Dadlam returned from the Garden of Wisdom, with disturbing ideas.

One of these ideas... was related... to the "great and terrible" day. In an insistent and impertinent way, Dadlam proclaimed that the "great and terrible day" is associated with the day of judgment. According to the director of the CHRONICLES, the God of Creation is to destroy the wicked, including humans and demons. Dadlam used the term simpletons and fools, to refer to the demons who ignore the warning, that they are going to be... destroyed.

Surely the most disturbing idea, proclaimed by Dadlam, has to do with the will of God with a capital "G". His will always prevails! Today, thanks to the good work of THE CONSORTIUM, the wicked seems more prosperous than men of integrity. Everything will change... when the "great and terrible day" occur. As a result of this extraordinary event, the wicked will receive punishment, and the righteous will receive their blessing.

These turbulent and disturbing ideas brought serious problems to Dadlam.

When the scientist «Happenstance» entered the elevator, the first thing he said was:

“Did you hear about the rumor?”

All the ADVISORS nodded their heads in the affirmative. While the scientist proceeded to comply with the security measures, he asked:

“What have you heard?”

The first to speak was engineer Casi Puedo and in a loud voice said:

“The emergency meeting has to do with the CHALLENGE.”

While the "biometric retinas" reader was doing its job, the scientist said:

“It has nothing to do with the CHALLENGE... any other theory?”

The presumptuous teacher Creo Saber commented:

“It has nothing to do with the CHALLENGE itself, but with the requirements.

“What do you mean by the requirements?” asked the scientist.

“I'm referring to the consequences of the CHALLENGE.” (Note:1)

The arrogant scientist in a tone full with pride said:

“It has nothing to do with the consequences of the CHALLENGE.”

Immediately the doctor, referring to the emergency meeting, said in his arrogant tone:

“It has to do with the great and terrible day that is coming.”

As the infrared sensor completes its journey, the scientist said with vanity and pride:

“It has nothing to do with the great and terrible day that is coming.”

Attorney Odeim, curiously, asked:

“What's the subject of the emergency meeting?”

“The pouring...”

Everyone in the elevator became intrigue.

“I am referring to the strange message that came from the throne of God.”

According to the Scientist, the emergency meeting is related to the message intercepted by the espionage division of THE CONSORTIUM. The communication was generated in heaven and came from the Throne of God. The words of this message warn that

the time is approaching... of the pouring. The implications of this event put in danger THE CONSORTIUM and its control over the world.

The Control by Levels:

First level: All the nations of the world have a Ruler (High Management) that controls the country.

Second Level: Authorities (Middle Management). This large group helps the Rulers maintain spiritual control of the country and encourages the production of negative energy.

Third level: Powers (Lower Management). They control the evil centers in the different regions of the country. An evil center can be a prostitute house, a bar, a drug hot spot or any activity that promotes pain and evil for the benefit of the kingdom of Darkness.

Fourth Level: Forces of Evil (Foremen). These diabolical entities work for the Powers and their main task is to infect the minds of humans with carnal thoughts that do not please God. Evil-filled thoughts benefit THE CONSORTIUM and destroy humans.

Once again, the elevator's automatic hydraulic brake system went into action and the cabin slowed down. It softly stopped! The six Advisors reached the deepest level of the building. This area is the prelude to the famous Room of Hidden Secrets, a meeting place, of the Superior Council.

The smell of sulfur that entered the elevator is very ugly, for humans, but for these entities it is delightful and very pleasant.
