

"Before JCI, I was unhinged, unemployed and an un-productive citizen. I went in with skepticism and a hard head. They were patient, present and determined that if I worked with them, or now as I see it, they were going alongside of me every step of the way, things could turn around.

**My life has been transformed by the people, resources and the effort I put into wanting something better for myself.**

Thank you JCI,  
you have helped  
change my life!"

***Works for You!***

## Behavioral Health Services

Assistance for those  
struggling with mental  
health and substance use.

# IPS

*Individual Placement & Support*

For persons over 16 with mental health and substance use barriers

Individuals choose, attain, and retain employment within their community

Regardless of their level of recovery, community partnerships ensure access to:

- treatment,
- employment,
- education,
- peer support, and
- independent living

## Services

- Identification of employment goals
- Individualized benefits counseling
- Integration of vocational services with mental health and/or substance use services
- Rapid job search, job development, and job support

# PSS

*Peer Support Services*

For persons over 16 with severe and persistent mental illness, substance use, and those transitioning to independent living.

Peer Support Specialists assist individuals with:

- reaching stable recovery,
- quality lifestyle, and
- independent functioning

Why does PSS make a difference?

**Peer Support Specialists** are persons with the lived experience of recovery from a mental health condition, substance use disorder, or both. They provide support to others experiencing similar challenges. They provide non-clinical, strengths-based support to assist others in living quality lives.

# PSR

*Psychosocial Rehabilitation*

For persons over 21 with chronic mental illness

"Clubhouse model" ("Unity House") assists with recovery and stabilization and helps adults with psychiatric disabilities:

- develop, enhance, retain psychiatric stability,
- social/independent living competencies,
- increase individual functioning

Services provided at:  
112 Richardson St., Selma

## Services

- Maximizing members' ability to live as independently as possible,
- Manage their illness and life with as little professional intervention as possible, and
- Participate in community opportunities related to functional, social, educational, and vocational goals.
