

What is the IPS Program?

- IPS Supported Employment Services are for persons over 16 with mental health and substance abuse barriers.
- JCI helps individuals choose, attain, and retain employment within their community.
- JCI partners with community agencies to ensure individuals have access to treatment, vocational services, employment, education, peer support, and independent living regardless of their level of recovery.

How can IPS help me?

- Identification of employment goals
- Individualized benefits counseling
- Integration of vocational services with mental health and/or substance abuse services
- Peer mentoring
- Rapid job search, job development, and job support

RECOVER

Your Mental Health

"Before JCI, I was unhinged, unemployed and an un-productive citizen. I went in with skepticism and a hard head. They were patient, present and determined that if I worked with them, or now as I see it, they were going alongside of me every step of the way, things could turn around.

My life has been transformed by the people, resources and the effort I put into wanting something better for myself.

Thank you JCI,
you have helped change my life!"

ACHIEVE
