

Employer Solutions

NCWorks NextGen provides custom solutions to meet employer talent needs. Make a difference in the life of a young person while developing tomorrow's workforce!

Work Experience

NextGen partners with local employers to provide structured work based learning experiences for young adult participants for up to 480 hours.

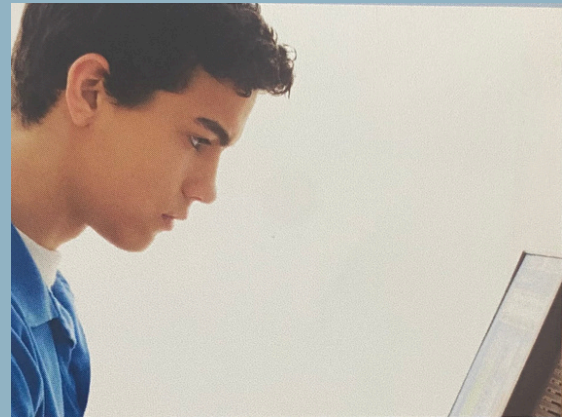

There is NO COST to the employer. We simply ask that the participant be provided with an opportunity to gain knowledge, training and skills for the job position. This will increase their potential for employment success.

On The Job Training

NextGen partners with local employers to subsidize the costs of onboarding and training for young workers.

On the Job Training lets employers hire and train skilled workers and get reimbursed for these efforts. Employers can receive up to 75% of the costs to hire and train NextGen participants.

Contact us for help with recruiting and retaining young talent and invest in our county's future workforce.
