Exhibition *Movement, Figures, Memories*

Our showcase 'pop-up' exhibition – *'Movement, Figures, Memories'* in Évora with five talented Portuguese and European artists closed at the end of October 2025. We were visited by so many curious, enthusiastic and appreciative visitors, artists and art organisations and we have now begun to develop the partnerships and connections we made there during our time in the stunning Rua do Inverno exhibition space.

What is coming next for Galeria Casa Mora Arte?

<https://www.evora2027.com>

2026 will see us widen our artist repertoire to include more artists from the Alentejo and beyond.

We are preparing to become involved with *Evora_27 European City of Culture* and we are building a collaborative project with other arts organisations, artists, and key stakeholders in Alentejo as part of “A Nossa Vez.”

Our project will focus on past, present, and future - artistic interpretations of ‘Vagar’. We plan to create an exhibition and learning space that will host, showcase, and support learning and engagement with art and artists, and build a new creative interactive exhibition with a diverse group of contemporary artists working across different media.

New artists

New Artists that we will be working with on this project are:

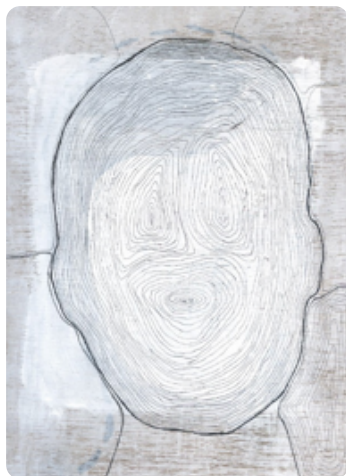

Genison Oliveria, João Miguel Concha, Joaquim Concha, Jorge Simão, José Miguel Gervásio, Susana Machado

and here are some examples of their work:

Genison Oliveria

João Miguel Concha

Joaquim Concha

Jorge Simão

Susana Machado

José Miguel Gervásio

In 2027 we hope to work closer with Atelier Do Pateo

An extraordinary community arts centre in Evora that enables young and old to work together and develop their art skills and talent and create stunning individual and group works. We plan to enable our artists and the Atelier to connect and participate together in the workshop programme that will run alongside the exhibition.

Call for Artists

*Mike Spike Significant Minutiae 2021
Woolwich Contemporary Print Fair 2025*

We have been delving into the world of print making when we visited the Woolwich Contemporary Print Fair 2025 in London and saw some extraordinary art including this piece by British Mike Spike 'Significant Minutiae 2021'. We plan to increase our range and work with contemporary European print makers.

Cape Verde Wall Art

*Fate Allegory.
Domingos Antonio Ferreira ,Angola*

We will be staying with our focus on working with contemporary voices in Portuguese Art. We are always looking for new artists to work and develop. We particularly want to connect and work with artists from the Portuguese Lusophone countries, and widen their exposure and appeal to new audiences.
