Circus on the Beach Barbar LT 2020

Movement, Figures and Memories

We are moving forward and are planning now to create spaces and opportunities for emerging and existing talent here in Portugal and wider across Europe and Portuguese speaking countries worldwide.

We are reaching out to artists who want to work with us , to collaborate and share your stories and ideas, and to connect with us and become part of our repertoire.

We are planning now for an exhibition space somewhere in Evora, Alentejo to be open in the autumn of 2025.

we want something exciting, different and inclusive to bring your art to new and wider audiences. Please speak to us if you would like to be involved! we see this as an important way forward which will also begin our connect with the vision for Evora as the European City of Culture 2027.

Evora 27 VAGAR

The theme for 2027 is a vision for art and expression, based on the Alentejo's cultural and artistic heritage, highlighting our awareness that humankind is always in relation to everything around us. The programme will be based on three thematic lines - **Time, Space and Matter** grouped around the notion of vagar - meaning to wander.

Casa Mora Arte is developing our presence there now and we plan to work with artists from all over Europe to exhibit and be part of this special event.

info@casamoraart.com

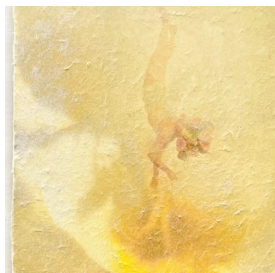

We enjoyed a visit to Barbara's studio and to meet an artist whose works reflects the themes of our next exhibition.

Barbara LT paints exquisite works of circus acrobats in motion. Her work celebrates those feelings we might have had at the circus of being part of something with wonder, magic, movement and collaboration. She looks for and paints the beautiful human inside the dreamy performer. We are hoping to include her work in our portfolio and future exhibitions.

You can find her on @artbarbaralt
