

HARBOR LIGHT ACADEMY

Heggerty Pre-K Phonemic Awareness Curriculum

The Heggerty Phonemic Awareness Pre-K lessons are designed to supplement any existing literacy curriculum and easily integrates half-day or full-day preschool programs. When lessons are taught daily with explicit teacher modeling and scaffolded support, teachers see improvement in students' reading, spelling, and writing as the students learn to hear the sounds in words.

Kindergarten through 2nd grade

Superkids: Superkids is a comprehensive English language arts curriculum crafted for grades K–2 using evidence-based literacy practices. This proven-effective program follows a unique systematic and explicit instructional path through engaging, increasingly complex text.

Math in Focus: Math in Focus is a program incorporating the widely-used Singapore approach to math. This includes a consistent use of models that allow students to tackle concepts that are normally delayed until later grades. There is an emphasis on application of math skills.

Five Ponds Press Science: Students are challenged to explore relationships between science, technology, engineering, and math (STEM), apply inquiry skills, and incorporate nature of science understandings.

Five Ponds Press Social Studies: Students focus on each standard of learning for history, geography, economics, and civics and develop a deep understanding of each subject.

3rd grade through 8th grade

Voyages (Grammar): Voyages in English prepares students to become literate masters, resulting in better writers, readers, listeners, and speakers.

Wordly Wise (Word Study): Wordly Wise provides vocabulary instruction that develops the critical link between vocabulary and reading comprehension.

Math in Focus: Math in Focus is a program incorporating the widely-used Singapore approach to math. This includes a consistent use of models that allow students to tackle concepts that are normally delayed until later grades. There is an emphasis on application of math skills.

Read Side-by-Side (Novel studies): This program provides a highly motivating curriculum, tailored specifically to the needs of middle-grade students. Trade books teach students to use the structure of the text to apply strategies in order to better comprehend and enjoy the text

Five Ponds Press Science: Students are challenged to explore relationships between science, technology, engineering, and math (STEM), apply inquiry skills, and incorporate nature of science understandings.

Five Ponds Press Social Studies: Students focus on each standard of learning for history, geography, economics, and civics and develop a deep understanding of each subject.
