

# HIGH PRECISION FIBER CLEAVER

## VT-42N

### Features:

- ✓ Blade life up to 52,000 times
- ✓ Typical cutting angle  $\leq 0,45$  degree
- ✓ Double fixture design, suitable for various optical fibers of 200~3.0mm
- ✓ High-precision CNC machining and forming, excellent texture
- ✓ Tungsten steel blade, wear resistance, high hardness, corrosion resistance
- ✓ Compact design, fits comfortably in the palm of your hand, lightweight and easy to carry.

## Specifications:

Cladding Diameter	125μm
Outercoat Diameter	0.2~3.0mm
Fiber type	SM/ MM mode
Typical Cleaved Angle	~0.45°
Cleaved Length	8-20mm
Typical Blade Life	52000 cleaves
Rotating Blade Number	24
Auto return	Pre-fitted
Dimension (mm)	77W*97D*63H(mm)
Weight	~360g

## Product configuration:

Fiber Cleaver VT-42N	1
Carrying case	1
125 μm fiber clamp (spare)	1
Quick guide	1
