Module 1: What Is Astrology?

Astrology is far more than horoscopes in the newspaper — it is the study of celestial cycles and their reflection in human life. This module introduces astrology as a symbolic language of the cosmos, one that connects the movements of the planets to events on Earth. You'll discover why astrology has endured for thousands of years, guiding kings, scientists, and spiritual seekers alike.

Module 2: The Origins of Astrology

From the star temples of Babylon to the pyramids of Egypt and the academies of Greece, astrology has deep roots in ancient civilizations. This module explores how early cultures mapped the heavens, tracked planetary cycles, and saw in them the rhythms of nature and human destiny. You'll see how astrology evolved into a structured system that still influences us today.

Module 3: The 3 Pillars of a Birth Chart

Every birth chart is built on three essential pillars: the **Sun**, representing core identity; the **Moon**, representing emotions and inner world; and the **Rising Sign**, representing how you appear and begin new cycles. This module shows how these three elements weave together to form the foundation of personality and life direction.

Module 4: The 12 Zodiac Signs – Archetypes of the Soul

The 12 zodiac signs are archetypes — universal energies that live within every human being. This module dives into the signs as symbolic stories: Aries the Warrior, Libra the Balancer, Pisces the Mystic, and more. You'll see how each sign reflects a unique style of expression, challenge, and growth on the path of the soul.

■ Bonus Module Previews

■ Bonus 1: Astrocartography & Relocation Charts

Astrocartography shows how your birth chart shifts across the globe. This bonus module reveals how planetary lines on world maps can indicate the best (and worst) places for love, career, and growth.

■ Bonus 2: Moon Phases and Manifestation Cycles

This module teaches how to align intentions with lunar rhythms. From New Moon beginnings to Full Moon manifestations, you'll learn to work with the Moon as a guide for timing and energy.

■ Bonus 3: Past Lives and Karmic Astrology

This module explores the lunar nodes, retrogrades, and karmic placements in the chart that point to lessons carried over from past lives. It provides a framework for understanding soul contracts and evolutionary growth.
