

Provizion ENERGY Product Overview

Overview

Provizion GSH ENERGY is a concentrated peak-performance nutritional drink built around three complementary systems: the ATP Energy Blend, GSH BioBlend™, and Focus Blend. Together with supporting vitamins and minerals, these systems supply key nutritional building blocks for cellular energy production, reinforce glutathione and antioxidant defenses, and support sustained energy, mental focus, mood, vitality, and overall well-being.

Why Provizion ENERGY

Designed for life in motion, GSH ENERGY combines cellular-energy nutrition, antioxidant support, and focus-supporting nutrients in one convenient liquid format. Used alongside Provizion GSH Capsules, it creates a powerful inside-out nutritional strategy centered on glutathione, mitochondrial energy, and daily performance.

The Benefits of Provizion ENERGY

Provizion ENERGY supports normal cellular energy production in multiple ways:

1. It provides key nutrients involved in normal energy metabolism, helping support daily energy and vitality.
2. It supports antioxidant defenses — GSH ENERGY provides two forms of glutathione along with precursor support, cofactors, and complementary antioxidants that help the body maintain its natural defenses against oxidative stress.
3. It supports ATP production by providing nutrients involved in normal mitochondrial energy metabolism.
4. Its concentrated liquid format provides a convenient delivery system for its complementary nutrients.

*Individual results vary based on factors including diet, lifestyle, stress, sleep, exercise, and consistency of use.

ATP Energy Blend

ATP is the primary energy currency used by cells and is produced largely within the mitochondria. Our ATP Energy Blend provides nutrients involved in normal mitochondrial energy metabolism and ATP production, supporting healthy cellular energy function.

GSH BioBlend

GSH BioBlend™ complements the ATP Energy Blend by supporting healthy glutathione status and the antioxidant defenses that accompany normal cellular energy metabolism. Its complementary antioxidant nutrients help support the body's defenses against oxidative stress.

Focus Blend

Focus Blend combines adaptogenic and focus-supporting ingredients selected to help support mental clarity, positive mood, and the body's normal response to everyday physical and mental stress.

Synergistic Ingredients

1. Vitamin C

Vitamin C is an antioxidant nutrient that supports normal immune function and works within the body's antioxidant network. It also helps regenerate vitamin E.

9. Potassium Carbonate

Supplement Facts	
Serving Size 1 stickpack (21.5mL) • Servings Per Container: 20	
Amount Per Serving	%DV
Calories 5	
Total Carbohydrate 1g	<1%*
Vitamin C (as Ascorbic Acid) 90mg	100%
Vitamin D (as Cholecalciferol) 50 mcg	250%
Vitamin K (as Menaquinone) 125 mcg	104%
Niacin (Vitamin B3) 25 mg	156%
Vitamin B6 (as Pyridoxal-5'-Phosphate) 10 mg	588%
Vitamin B12 (as Methylcobalamin) 500 mcg	20833%
Zinc (as Zinc Citrate) 6 mg	50%
ATP Energy Blend 750mg	
Acetyl-L-Carnitine, D-Ribose, Potassium Carbonate, Green Tea Extract, Green Coffee Bean Extract, DiCaffeine Malate, Synephrine HCL, Phosphoric Acid, Magnesium Citrate	
GSH BioBlend 310mg	
L-Glutathione Reduced, Superoxide Dismutase, Organic Aloe Vera Powder (Inner Leaf), L-Cysteine, S-Acetyl-L-Glutathione	
Focus Blend 250mg	
Beta-Phenylethylamine HCL (PEA), Eleuthero Root Extract, L-Theanine, Quercetin Dihydrate, Korean Red Ginseng Extract	
*Percent Daily Values (DV) are based on a 2000 calories diet	
†Daily Value (DV) not established	
OTHER INGREDIENTS: Purified Water, Natural Flavors, Citric Acid, L-Malic Acid, Sucralose, Beta-Cyclodextrin, Vegetable Juice (for color), e-Polylysine (preservative), Rebbaudioside A (Stevia Extract)	
Manufactured for Provizion Global, LLC 4106 County Road 3706 • Wills Point, TX 75169	

Manufactured in a facility that is: [cGMP compliant](#);

Provizion.com/Energy

2. Niacin - Vitamin B-3

Niacin's most important role in the body is the formation of NAD and NADP which assist the processing of food for energy. It also operates as an antioxidant, helps with cell signaling, and supports healthy DNA structure.

3. Vitamin B-12

B-12 is a nutrient that is required for proper red blood cell formation, healthy brain function, and DNA synthesis.

4. Vitamin B-6

B6 plays an important role in the body. It is needed to maintain the health of nerves, skin, and red blood cells. It also serves as a coenzyme catalyzing more than 150 enzymes supporting a healthy metabolism and synthesis of proteins, carbohydrates, lipids, and important bioactive metabolites.

5. Vitamin K2

K2 plays a critical role in helping our blood to clot, as well as supporting heart and bone health.

6. Vitamin D3

D3 helps cells absorb essential nutrients for strong bones as well as supports the immune system and general health.

ATP Energy Blend Contains

7. Acetyl L-Carnitine

Acetyl-L-carnitine is related to L-carnitine, a compound involved in transporting fatty acids for cellular energy production, and has been studied for support of normal energy metabolism and mental performance.

8. D-Ribose

D-Ribose is a naturally occurring sugar that forms part of ATP, the primary energy-carrying molecule used by cells, as well as RNA and other important biological compounds.

Potassium is an essential mineral and electrolyte that supports normal cellular, nerve, and muscle function and healthy fluid balance.

Provision ENERGY Product Overview

10. [Green Tea Extract](#)

Green tea provides naturally occurring polyphenols and other antioxidant compounds that help support the body's defenses against oxidative stress and overall wellness.

11. [Green Coffee Bean Extract](#)

Green coffee bean extract provides naturally occurring polyphenols and caffeine and is included to support antioxidant status, energy, and mental alertness.

12. [DiCaffeine Malate](#)

DiCaffeine Malate is a caffeine-containing ingredient included to support energy, alertness, and focus.

13. [Synephrine HCL](#)

Synephrine is a naturally occurring plant alkaloid studied for its role in energy metabolism and thermogenesis.

14. [Phosphoric Acid](#)

Phosphoric acid provides phosphate and is also used in liquid formulations to help control acidity and product stability.

15. [Magnesium Citrate](#)

Magnesium is an essential mineral involved in hundreds of enzymatic reactions and supports normal muscle, nerve, and energy metabolism.

GSH BioBlend Includes:

16. [Bioavailable L-Glutathione](#)

Reduced L-Glutathione is a naturally occurring antioxidant produced throughout the body. Providing glutathione complements the body's own production and supports healthy antioxidant status and protection against oxidative stress.

17. [Superoxide Dismutase \(SOD\)](#)

SOD is an antioxidant enzyme that helps neutralize superoxide radicals and contributes to the body's interconnected antioxidant defense network.

18. [Organic Aloe Vera Powder \(Inner Leaf\) - Acemannan](#)

Inner-leaf aloe provides Acemannan and other polysaccharides studied for their biological activity and support of normal digestive and cellular functions.

19. [L-Cysteine](#)

L-Cysteine is an amino acid and a precursor used by the body in the synthesis of glutathione, supporting normal glutathione production and antioxidant defenses.

20. [Bioavailable S-Acetyl-Glutathione \(SAG\)](#)

Because glutathione can be affected by digestion, researchers have explored alternative forms and delivery strategies. S-Acetyl Glutathione provides a complementary glutathione form within GSH BioBlend™.

Focus Blend Includes

21. [Beta Phenylethylamine HCL \(PEA\)](#)

PEA is a naturally occurring trace amine included in the Focus Blend to support alertness, focus, and a positive mood.

22. [Eleuthero Root Extract \(Siberian Ginseng\)](#)

Eleuthero root is an adaptogenic botanical traditionally used to support stamina and the body's normal response to physical and mental stress.

23. [L-Theanine](#)

L-Theanine is an amino acid found naturally in tea and has been studied for its role in supporting a calm, focused state and a healthy response to everyday stress.

24. [Quercetin Dihydrate](#)

Quercetin is a plant-derived flavonoid with antioxidant properties that supports normal immune function and the

body's response to oxidative stress.

25. [Korean Red Ginseng Extract](#)

Korean Red Ginseng contains naturally occurring ginsenosides and other compounds studied for support of energy, mental performance, and the body's response to everyday stress.

Recommended Usage

Take 1 ampule daily as desired. Do not exceed the labeled serving recommendation.

Directions

TEAR, SWISH, & SWALLOW. Drink directly from the sachet or mix with water. Can be taken with or without food. Swish before swallowing if desired.

Niacin Flush

Some people may notice temporary warmth, tingling, or flushing of the face or neck after consuming niacin (vitamin B3). This known niacin response is generally temporary, but individual responses vary.

Warning

Keep out of reach of children. Consult your healthcare provider before taking if you are pregnant or nursing, or if you experience an adverse reaction.
