

Provizion Global KT Mist Product Overview

Overview

Our skin is the largest organ in the body. KT Mist is a soothing, hydrating spray infused with and our proprietary GSH BioBlend of core ingredients especially formulated to strengthen the cells of our skin. It is formulated with proven botanicals and other vibrant ingredients to energize your skin and help reduce the signs of aging. It's 20 active ingredients work synergistically to protect the skin from damaging oxidative stress and toxins, while moisturizing and helping improve skin tone and texture.

First Line of Defense

Our skin truly is our first line of defense against the constant barrage of cell stressors such as the sun's radiation, air pollution and other toxins, and physical stress. Free radical oxidants abound in our atmosphere. Throw in the aging process and our skin never rests. Fortunately, in KT Mist we've created a new weapon to easily and effectively help our skin to win this never-ending battle. It's combination of complimentary ingredients supplies antioxidant support, and hydrating power in unprecedented form. Just a few short mists deliver this powerful product directly where you want and need it most. We believe that when used in concert with Provizion Global's flagship product, GSH, you will supply the needed nutrients on the inside and thereby enhance the effectiveness of KT Mist on the outside.

GSH BioBlend Overview & Benefits

The five core ingredients in our proprietary GSH BioBlend collectively provide a wide range of benefits. Their proven antioxidant capabilities are central to their role in promoting healthier, more youthful-looking skin. Each of these ingredients synergistically creates the overall effectiveness of the *KT Mist Nano Skin Spray* by targeting various skin concerns such as hydration, visible signs of aging, and skin texture. However, always consider any personal skin sensitivities and consult with a dermatologist if you have any questions about our ingredients.

GSH BioComplex benefits may include*:

- Improved skin tone and texture
- Soothing and hydrating properties
- Protection against oxidative stress
- Protection from damage by environmental toxins
- Reduction of dark spots
- Brightening of the skin

*Everyone's consistency of use, individual environments, stress levels, diets, sleep cycles, and exercise routines will have an effect on how much and how quickly they experience results.

Bioavailable L-Glutathione (GSH)

This is the active form of glutathione, known for its strong antioxidant properties and is produced by every cell in the human body. It helps in detoxifying the skin, protecting against any damage

from the environment, and has a skin-brightening effect that can improve the look of dull skin and reduce the appearance of hyperpigmentation. GSH assists the body in ATP production, which is the energy source needed by all functions of the body, including skin health.

Bioavailable S-Acetyl-L-Glutathione (SAG)

This is a highly stable form of glutathione and a potent antioxidant. It is known for its skin-brightening properties and can help in reducing the appearance of dark spots and uneven skin tone. It also defends against oxidative stress, contributing to healthier, more youthful-looking skin.

Superoxide Dismutase (SOD)

This is a powerful antioxidant enzyme naturally found in every cell in our bodies. When applied topically, it helps protect the skin from oxidative stress caused by free radical damage, which can lead to premature aging. It may also aid in reducing visible signs of aging, like fine lines and wrinkles, by defending the skin against environmental stressors.

Organic Aloe Vera Mannose Acemannan

Aloe Vera is renowned for its soothing and hydrating properties. The gel from the inner leaf is particularly effective in calming irritated or inflamed skin, moisturizing, and may assist in soothing minor skin abrasions. It's also beneficial for providing relief from

sunburns and reducing skin redness. Our Aloe uses a proprietary derivative of the inner leaf gel which contains polymannose, and unique polysaccharide.

L-Cysteine

This universally recognized compound is a safe and effective precursor to glutathione. It offers antioxidant benefits, protecting the skin from oxidative damage. L-Cysteine can also contribute to improved skin texture and tone, and potentially reduce the impact of damage due to pollution and other environmental stressors.

Synergistic Ingredients

1. **Purified Water:**
Pure water is the natural base of the formulation, helping to dissolve other ingredients while providing added hydration to the skin.
2. **Aloe Barbadensis Leaf Juice:**
Known for its soothing and moisturizing properties, it can help calm irritated skin and provides gentle hydration back to the surface cells.
3. **Sorbitan Oleate Decylglucoside Crosspolymer:**
This is a natural emulsifier that helps to smoothly blend the oils in the formula with the other water-based ingredients for the best possible mist experience.
4. **Glycerin:**
As a humectant, Glycerin draws moisture into the skin, thereby keeping it more hydrated and helping to maintain a healthy skin barrier against intruding free radicals and other toxins.
5. **Propolis Extract:**
Promotes a healthy response to potential inflammation, aiding in soothing irritated skin.
6. **Bakuchiol:**
A plant-based alternative to retinol, known for its ability to help reduce signs of aging, like wrinkles and fine lines, without the irritation commonly associated with retinol.
7. **Vitamin D3 (As Cholecalciferol):**
May help in supporting skin health and repair.
8. **Tetrahexyldecyl Ascorbate:**
A stable form of Vitamin C, it brightens the skin, supports collagen synthesis, and provides antioxidant protection.
9. **Hyaluronic Acid:**
Helps in retaining moisture in the skin, leading to a plumped, hydrated appearance.
10. **Niacinamide:**
Improves skin texture, minimizes pores, and helps in reducing the appearance of fine lines, while also balancing oil production.
11. **Jojoba Oil / Macadamia Seed Oil Esters:**
Nourishes and moisturizes the skin, providing essential fatty acids and antioxidants.

12. **Squalene, Phytosteryl Macadamiate, Phytosterols:**
These ingredients help in maintaining the skin's moisture balance and barrier function.
13. **Tocopherol (Vitamin E):**
An antioxidant that protects the skin from environmental stressors and helps in skin rejuvenation.
14. **Citrus Aurantium Bergamia (Bergamot) Fruit Oil:**
Provides a pleasant scent and may have some antibacterial properties.
15. **Melaleuca Alternifolia (Tea Tree) Leaf Oil:**
Known for being beneficial for irritated or inflamed skin.
16. **Dimethyl Isosorbide:** Enhances the delivery of other ingredients into the skin.
17. **Acacia Senegal Gum, Xanthan Gum:** Used as thickeners and stabilizers in the formulation.
18. **Tetrasodium Glutamate Diacetate:** A non-toxic and biodegradable chelating agent with natural origins that helps to stabilize the product.
19. **Gluconolactone, Sodium Benzoate:** Synergistically act as non-GMO preservatives to ensure the product remains effective and safe over time.

Recommended Usage

Use once or twice daily as desired.

Directions

Hold 1-2 inches from your skin and spray.

Warning

Keep out of reach of children. Consult your healthcare provider before use if you are pregnant or nursing, or if you experience an adverse reaction.
