About the Program

The Pharma Industry Career Advancement & Leadership Bootcamp 2026 is a comprehensive two-day certification program designed to prepare students and young professionals for successful careers in the pharmaceutical and healthcare industries. The program integrates technical training in Clinical Research, Medical Writing, Pharmacovigilance, and AI with career readiness, leadership, entrepreneurship, and professional development, providing participants with practical knowledge, industry exposure, and future-ready skills through expert-led interactive sessions and mentoring.

About CliMed Research Solutions

CliMed Research Solutions is one of India's leading healthcare education, research, and professional training organisations dedicated to developing industry-ready healthcare professionals. Through its initiatives, including CliMed Academy, Curio Training & Research Institute (CTRI), the Institute of Health Economics & Policy Research (IHEPR), and the Advances in Multidisciplinary Health Research (AMHR) journal, CliMed has trained over 100,000 learners and established collaborations with 160+ academic institutions, hospitals, and industry partners. The organisation offers specialised training in Clinical Research, Medical Writing, Pharmacovigilance, Regulatory Affairs, HEOR, Artificial Intelligence, Clinical Data Science, and Healthcare Analytics, combining academic excellence with practical industry exposure and career advancement.

Key Highlights of the Program

- **Comprehensive Industry Training** covering Clinical Research, Medical Writing, Pharmacovigilance, Regulatory Affairs, AI, and Emerging Healthcare Domains.
- **Leadership & Career Excellence** with sessions on leadership, entrepreneurship, personal branding, communication, and professional growth.
- **Hands-on Career Readiness**, including CV building, LinkedIn optimisation, mock interviews, resume evaluation, and placement preparation.
- **Learn from Industry Experts** through interactive sessions, panel discussions, one-to-one mentoring, and networking with pharmaceutical leaders.
- **Industry-Recognized Certification** with practical knowledge, career guidance, and future-ready skills to accelerate success in the pharmaceutical and healthcare industries.
