Introduction to relevant  
tools

Expert-led Training

## About the Curio

Curio Training and Research Institute (CTRI) is the Constituent Unit of CliMed Research Solutions India, dedicated to providing Pharma and Healthcare Industry Training. Curio is established to transform the pharma and healthcare landscape by nurturing talent, fostering innovation, and driving excellence in these critical sectors.

Curio commits to producing professionals well-versed in theory and equipped with practical skills to lead, innovate, and create positive change. Curio provides industry-oriented value-added, skill development courses, corporate training, and career consultation to individuals and institutions/universities.

## About the Internship

Pharmacovigilance and Medical Writing are the established field in the pharmaceutical industry, providing numerous growth opportunities. This involves researching various scientific, pharmaceutical, and regulatory literature to provide a well-structured report suitable for the target audience. The field is ever-growing and requires a lot of comprehensive skills and good medical knowledge.

The course will introduce various core concepts like target, key insights, and the latest tools used in Medical Writing and Pharmacovigilance through intro workshops from industry experts. Workshops would be followed by live Project assignments every week for practical experience and help acquire the necessary skills on the topics. The course provides a unique opportunity to test and improve your interview skills by attending our Mock interview workshop.

# Syllabus

*Week 3: Two-Hour Workshop on Development of Case Report Form (CRF)*

*Week 4: Two-Hour Workshop on the Development of Targeted Follow-Up Questionnaire*

*Week 5: Two-Hour Workshop on Narrative Writing*

*Week 6: Two-Hour Workshop on Case Assessment (PV)*

*Week 7: Two-Hour Workshop on Risk Assessment*

*Week 8: Mock interviews*

## Eligibility:

- *Any health science graduate (B. Pharm/Pharm D/Nursing/Medical/M Pharm/MSc/Ph.D. in science disciplines)*

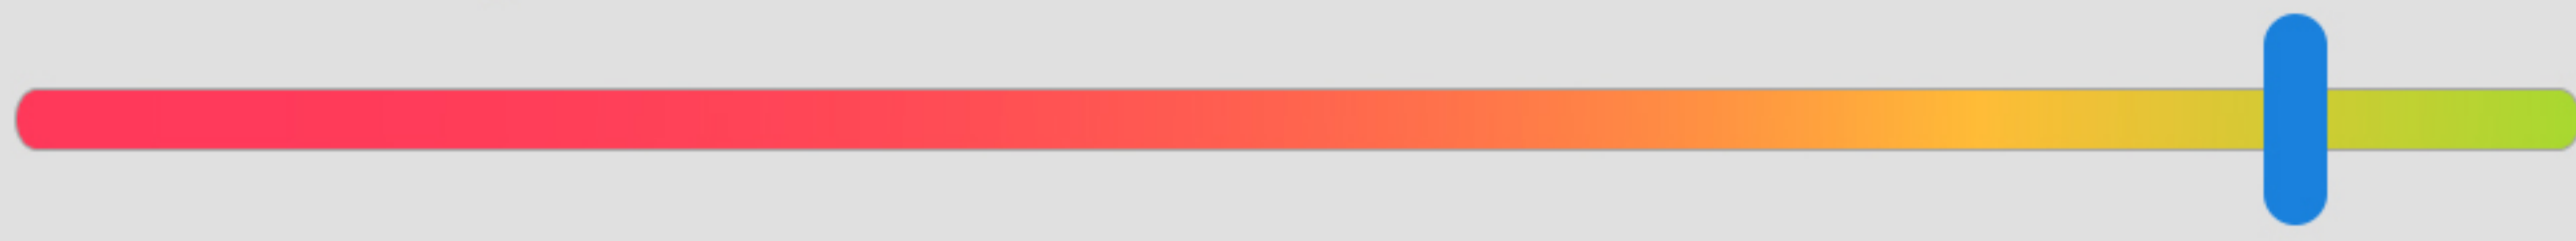

## Certification

A certificate will be provided upon completion, after satisfactory completion of weekly assignments and Final Tests.

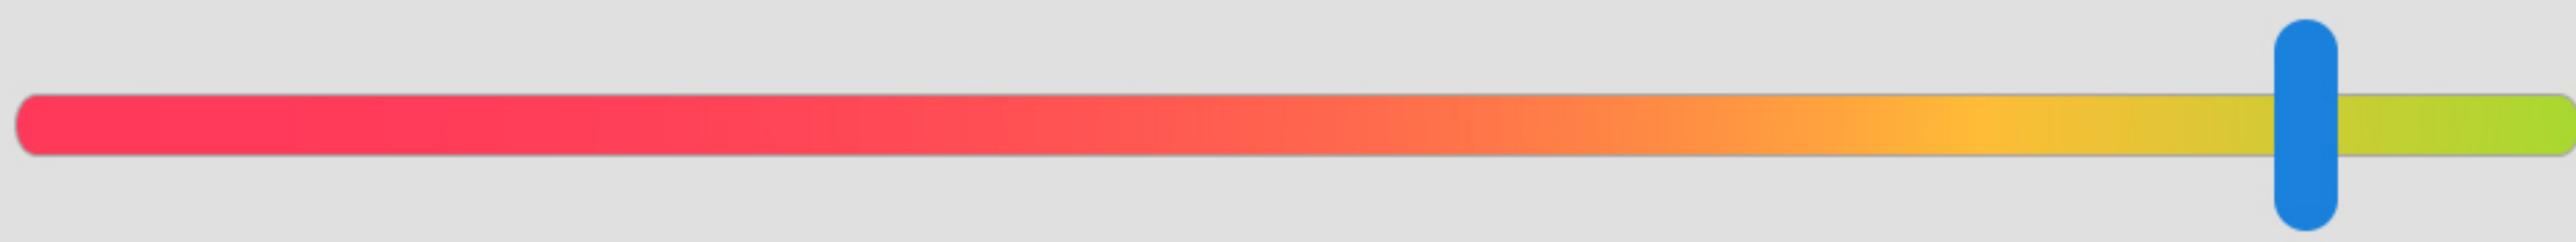

# Industrial Internship April-May 2024 Feedback (110 Participants)

Course Syllabus & Content (8.9/10)

Resource Persons (8.9/10)

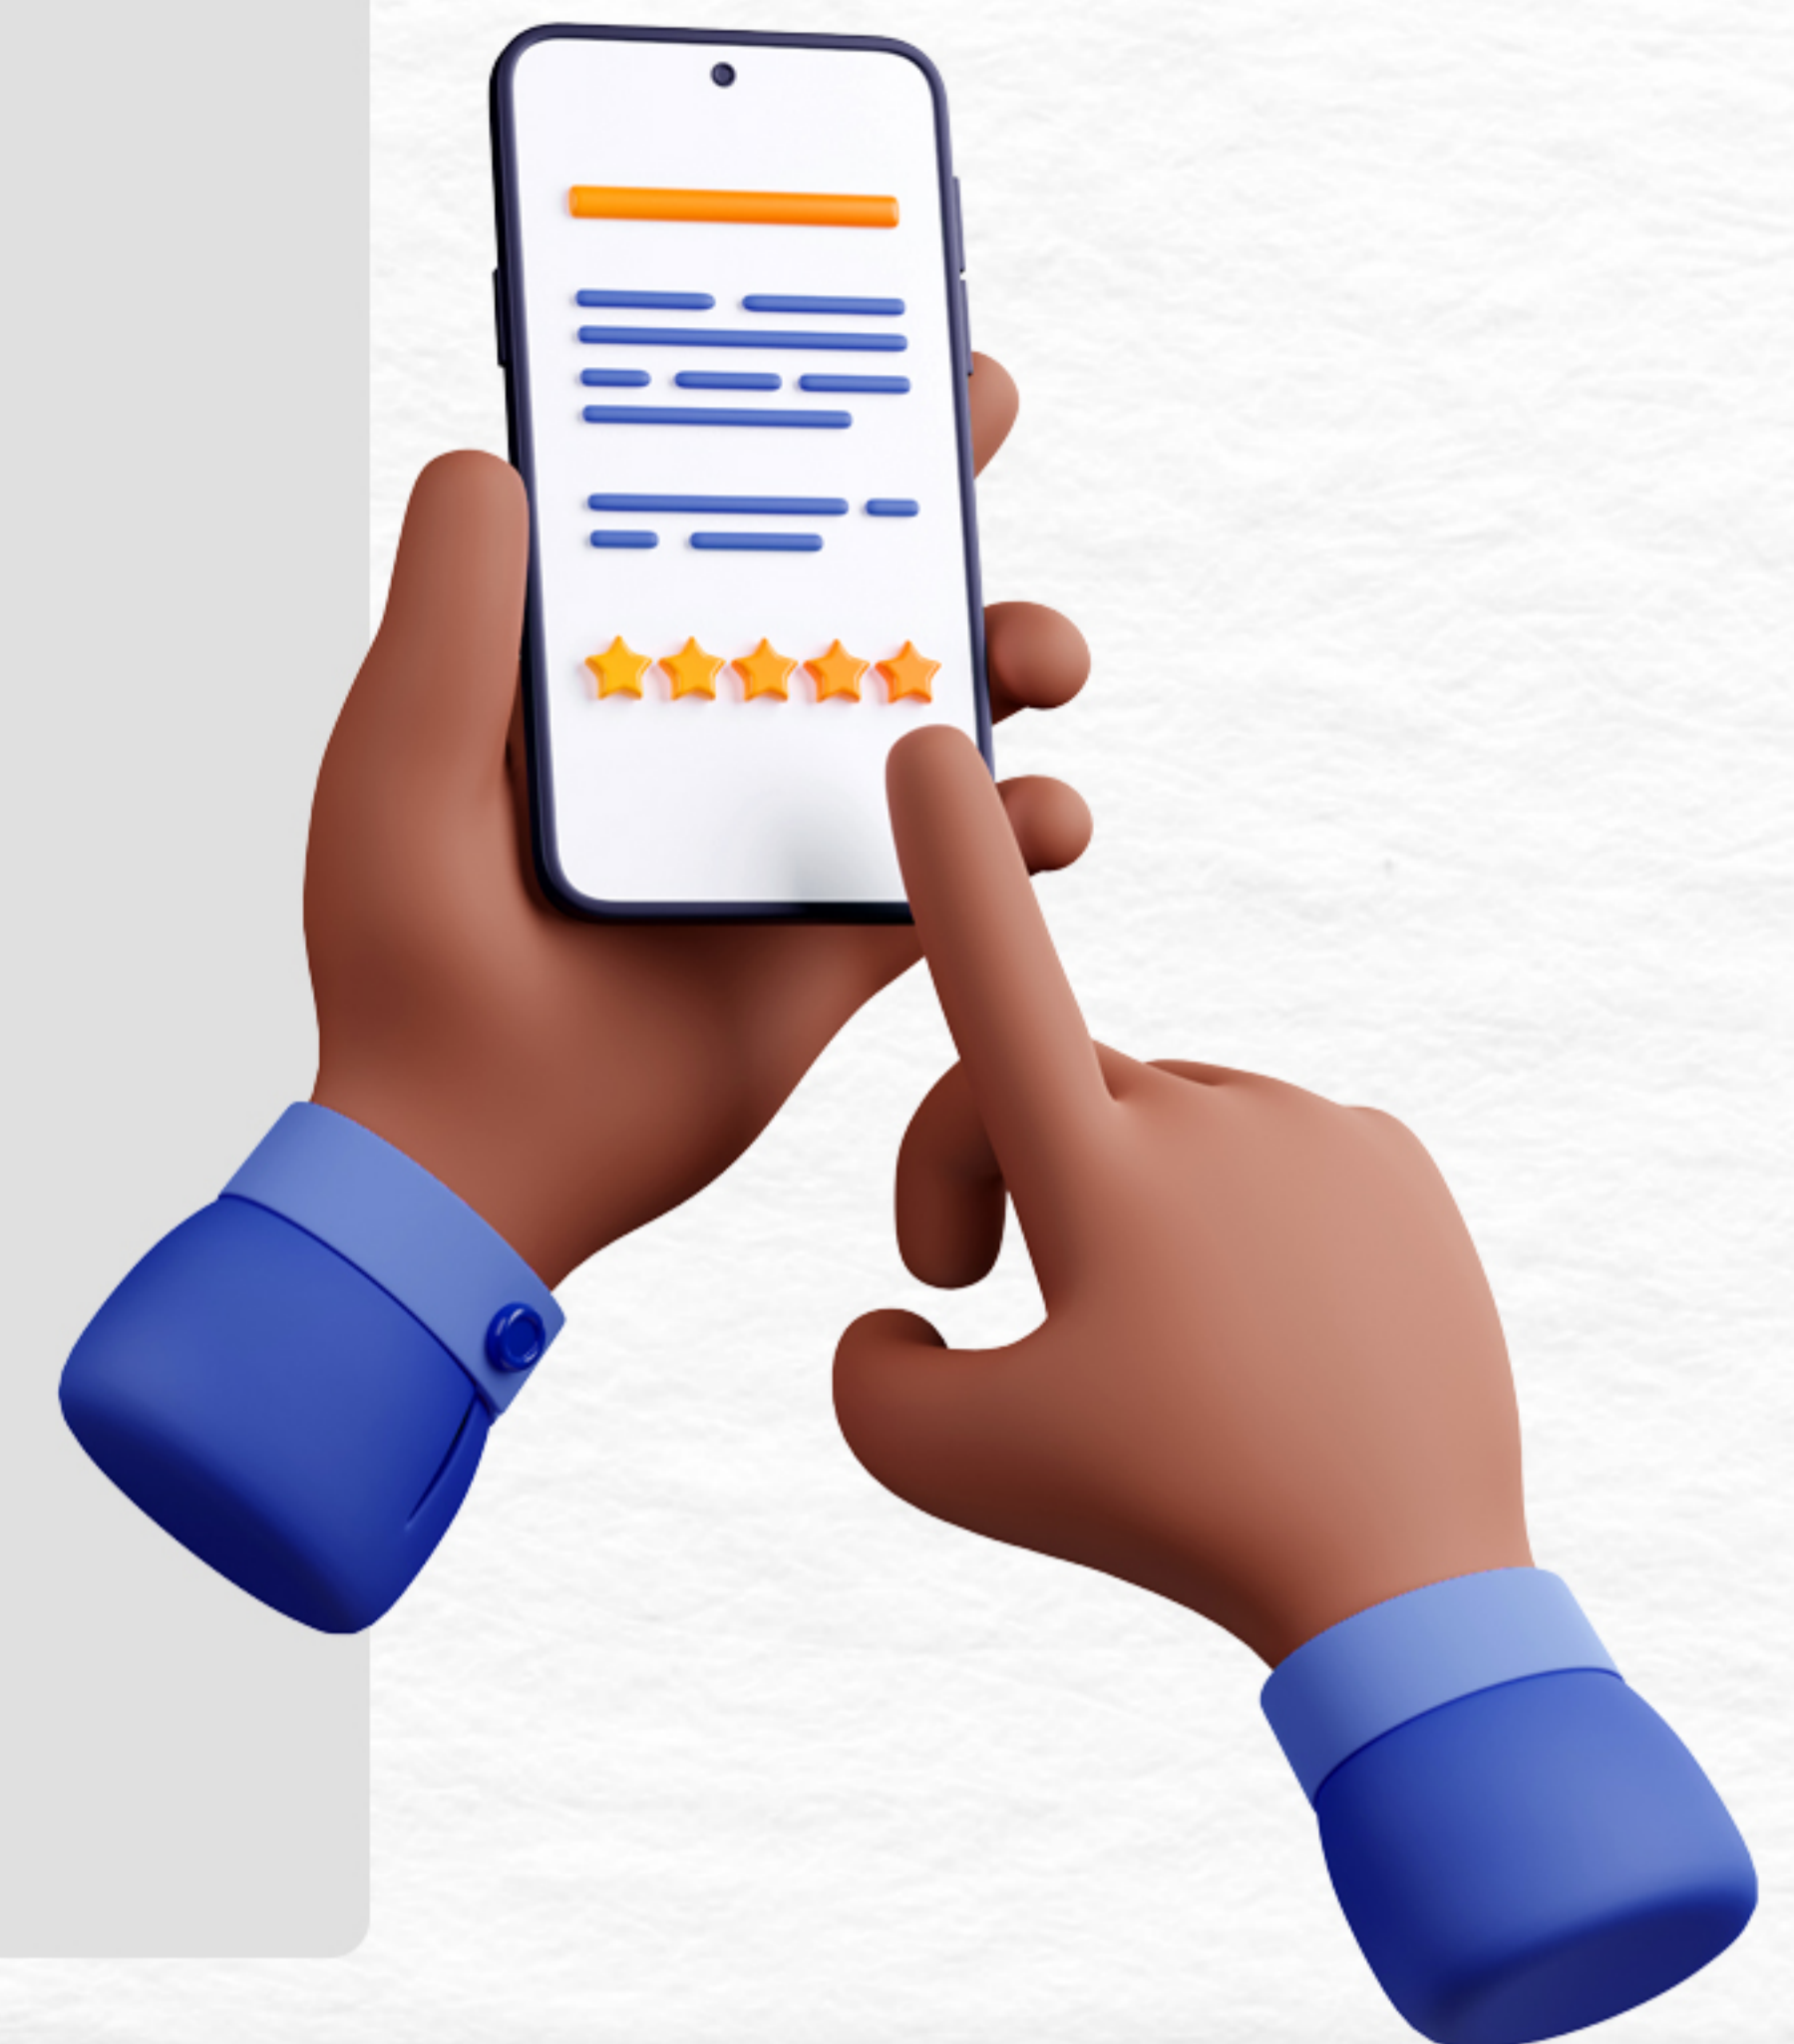

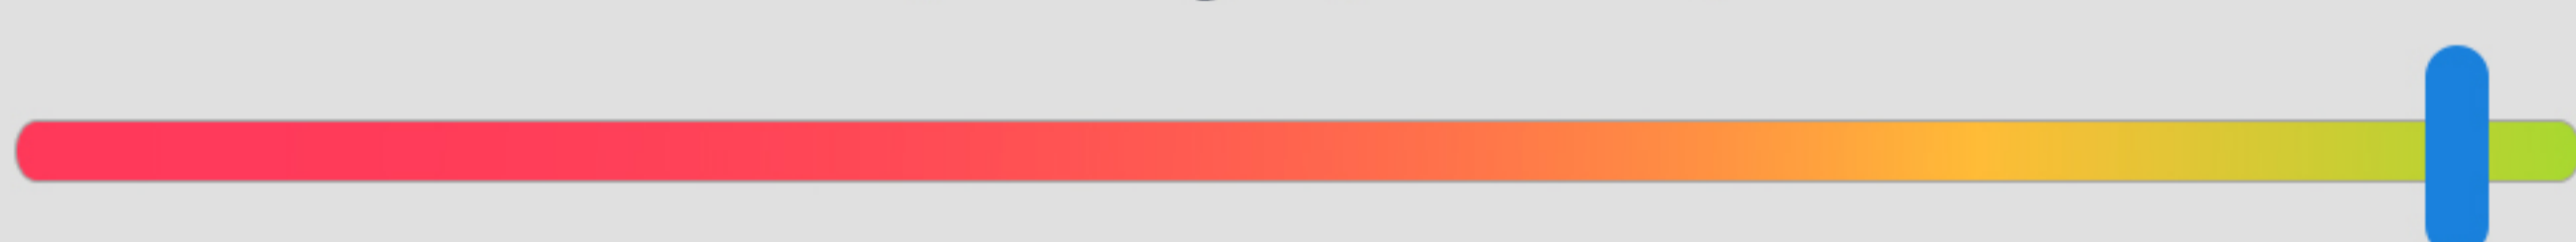

(with Teaching, experience, Q&A Session and interaction during class)

Did this course add value to your career? (9.0/10)

Overall Course Quality (9.1/10)

“ It was really a great initiative by Dr Ajit and his team introducing quality courses at a very reasonable prices and offering quality education also. In the market when there are so many players who charge lot of fee and yet deliver subpar content, this course is the best example to prove quality is not equal to the money paid always. Considering the reasonable price only many must have registered. However, those who really wish to gain knowledge and build a strong career would be benefited by these courses.

**Sai Kamal Darshith B, Manipal College of Health Professions, Manipal**

“ My internship in Pharmacovigilance and Medical Writing was an incredibly rewarding experience. I was able to dive deep into the pharmaceutical industry, learning how to research and craft well-structured reports. The workshops were eye-opening, especially those on protocol writing and risk assessment. Working on live projects gave me real-world experience, and the mock interviews boosted my confidence. This internship truly prepared me for my future career, and I'm grateful for the opportunity.

**Atharva Deepak Ekbote, SCES's Indira College of Pharmacy, Pune**

“ The internship helped me in gaining knowledge on a diverse range of topics including pharmacovigilance and medical writing. The training sessions and the assignments were helpful in learning new skills essential for these fields and also in furthering knowledge.

**Richa Gupta, Baba Farid University of Health Sciences, Faridkot**

“ This course really thought me an important things which is helpfull. Overall I really like this class because all lectures, assignments, and tests are straight forward. The assignments were very beneficial to the entire learning process. They made me understand this course very well.

**Vaishnavi Vishwanath Kharade, Marathwada mitra mandal's college of pharmacy, Thergaon, Pune**

“ *The Industrial Internship in Clinical Research was an invaluable experience. The hands-on projects in medical writing and pharmacovigilance provided practical insights and enhanced my skills significantly. The trainers were knowledgeable and supportive, ensuring a comprehensive learning experience. I highly recommend this program for anyone looking to gain real-world experience in clinical research.*

*Varad Ravindra Dharmadhikari, Marathwada Mitra Mandal College Of Pharmacy, Thergaon, Pune*

”

“ *Thank you sir for providing wonderful internship where it was like hands on experience on those topics and i understood the idea behind making all the assignments where that provided a practical experience.*

*ANJAN KUMAR R, AL-AMEEN COLLEGE OF PHARMACY, BANGALORE*

”

“ *As a first batch student of CliMeds industrial internship, I found the experience invaluable. The program provided a comprehensive understanding of industrial practices in climate-related fields. The hands-on approach equipped me with practical skills crucial for addressing environmental challenges. The mentorship was exceptional, fostering personal and professional growth. Overall, CliMeds proved to be a pivotal stepping stone in my journey towards a sustainable career.*

*MALLAM MEGHANAA, JOGINPALLY B R PHARMACY COLLEGE MOINABAD, HYDERABAD*

”

“ *This was a great experience. This certainly helps people who are in college or fresh out of college to grasp the designing of many industry related documents. The instructors were very knowledgeable and helpful.*

*Dr. Diwash Sharma, Government Pharmacy College Sajong Rumtek*

”

“ *Overally course is well designed with experienced teacher. A differentiated thing is After every lecture, we have assignments so that we know better in real time scenario & meet the industry standards. Also learning from them who is best in his field, Very interactive & practical approach in this course.*

*Susanta Kumar Sahu, ROLAND INSTITUTE OF PHARMACEUTICAL SCIENCES, BERHAMPUR*

”

“ *During my internship in medical writing and pharmacovigilance, I gained invaluable experience in crafting scientific documents and ensuring drug safety compliance. I honed my skills in research, medical writing, and regulatory standards, which enhanced my understanding of the pharmaceutical industry needs. The mentorship and hands-on projects were instrumental in building my confidence and proficiency. This internship was an exceptional opportunity for professional growth, and I am grateful for the knowledge and skills acquired the internship added a skill to career and suggestions for my upcoming future in medical writing.*

*Thatha Usha, Sri Padmavati School of Pharmacy, Mohan Gardens , Tiruchanoor*

”

“ *Thank you for offering such an enriching course! The content was comprehensive, engaging, and delivered with clarity. The instructor's expertise truly shone through, making complex concepts easy to grasp. The interactive activities like quizzes and assignments fostered a dynamic learning environment, enhancing retention and understanding. Overall, this course exceeded my expectations and left me feeling confident in my newfound knowledge.*

*Mansi Chakur, Dr Dy Patil Institute Of Pharmaceutical Sciences & Research, Pimpri Pune*

”
