

CliMed Internship & Mentorship Program Batch November 2024 present

Research, Writing & Publication: How to Begin TO How to Finish

Two-week Professional Certificate Training Course

NOVEMBER 15-24, 2024 (ONLINE)

About the Course:

Research & scientific publication is essential in academic career. The certificate course is designed under the "Advanced Skill Development Programs" as per the National Educational Policy 2021 of CiMed RS to boost the research & publications within academicians, researchers, and students of health & life science streams.

Target audience:

- Students of any health science and life science stream
- Researchers, Academicians & Industry delegates
- Medical writing aspirants
- Anyone who wants to conduct and publish the research in high impact journals

Objective:

To facilitate the students to conduct research and write a manuscript well and publish it

Expected outcomes:

Participants would learn how to

1. frame an appropriate research question and write a research protocol
2. build a team and conduct research including ethics approval, obtain funding
3. know the basics of statistics like calculating a sample size
4. write a manuscript and choose the right journal for a successful publication

Strategy:

This workshop would be an interactive workshop with faculty sensitizing the participants to the topic through audio-visual presentations followed by hands-on experience workshop on conducting, analysing and publishing their research.

Faculty Members:

Faculty members are eminent academicians and researchers from top-notch universities.
