The artist duo composed of Alana Rolfe and Timo Massa formed in Fort Collins, CO. 2020 saw the release of "The Warped Glimmer", the pair's debut full length album, charting #89 on College Radio Charts. VIVIAN explores hip hop beats, psychedelic textures, sultry vocals and glitchy details to create the aesthetic some have referred to as "mushroom-pop". In 2021 the duo relocated to New Orleans, LA and released the EP, "Snapsounds vol 1: March in the Marigny". Since their 2020 debut VIVIAN was: selected to score a short film, "Birds Eye View" for

Jackson Hole Mountain Resort, they were featured twice on NPR Live Sessions, selected for album of the week by 105.5 KJAC The Colorado Sound and managed to navigate touring in the covid era with safe, intimate shows throughout 2021 in FL, TX, NM, CO, NE, MO, IA, NY, NC, and LA.
