## Need:

There is an increase of violence and bullying related deaths

**PARTI PROGRAM**  
POSITIVE ALTERNATIVE RECREATION TEAMBUILDING IMPACT

## Our Work (Programs)

## Our Impact

**"PARTI means a lot to me as it allowed me to connect with a lot of people, and truly improve my skills"**

**PARTI empowers the next generation of leaders!**

Every day we work to change the lives of youth who suffer from bullying, depression, violent lifestyles, unhealthy relationships, and unstable family lives.

Since 2000 we have served over 50,000 youth reaching Santa Clara County, San Mateo County, Alameda County and California.

1. High Impact: meets weekly at participating schools that are dealing with high issues of violence, bullying, and poor school morale.

2. Leadership/Mentorship: Through partnerships with civic, corporate, and community

3. Fusion/Arts: Youth perform in the community and offers them ways to engage in other artistic and cultural traditions and avenues for participants to explore Digital Arts, Event and Music Production.

4. Health/ Wellness: Activities introduce team building concepts – uWe also support youth with self-care, reflection, activities.

The ExPosure event creates youth led service projects and activities to address racial justice, mental wellness, diversity and inclusion, gender equality, and access to opportunities for youth living in low income and marginalized communities.

It is our responsibility to empower the youth of today to take care of the world. For this, they must have a voice to change things.

Funds raised at event builds youth led activities, the creation of bullying prevention toolkits and mental wellness activities, and program activities.
