

INTERNATIONAL JOURNAL OF ARTIFICIAL INTELLIGENCE & SUSTAINABLE TECHNOLOGIES
VOL 1 (01), JULY – DECEMBER 2026

EDITORS NOTE

It is our privilege to welcome you to the International Journal of Artificial Intelligence and Sustainable Technologies (IJAIST), a scholarly platform dedicated to promoting high-quality research in Artificial Intelligence, emerging technologies, and sustainable technological development.

IJAIST aims to provide a credible forum for the dissemination of original, rigorous, and interdisciplinary research that contributes to technological advancement and addresses contemporary societal and environmental challenges. The journal welcomes research across Artificial Intelligence, Machine Learning, intelligent systems, IoT, data science, sustainable technologies, smart systems, cybersecurity, Industry 4.0, and related emerging fields.

We are committed to maintaining academic integrity, rigorous peer review, ethical publishing practices, and high editorial standards. Through contributions from researchers, academicians, practitioners, and emerging scholars, we seek to encourage meaningful scholarly dialogue and advance knowledge at the intersection of technology and sustainability.

We look forward to your valuable contributions and to building a strong and responsible research community through IJAIST.
