**RENATUS**<sup>SM</sup>  
YOUR WAY TO WEALTH AND PROSPERITY!

MEET THE FOUNDER: BOB SNYDER

With over last 30 years in business, Bob Snyder has founded or co-founded dozens of companies that have generated hundreds of millions in revenues. Over eight of those years, his real estate company completed over 2,500 wholesale transactions and in the last 13 years his training companies have trained over 60,000 individuals on the subject of wealth creation through business ownership and real estate investing.

Referred to as the "millionaire maker," Bob's business success stems from his belief that if you focus on creating success in others, your own success will assuredly follow.

*"Mr. Snyder's wisdom, insight and information will wow your soul. His abundance is overflowing, and he wants to share it with you."*

*A strategic curriculum comprised of learning paths that focus on your specific investing goals.*

For in-depth and advanced real estate investment courses, the Renatus Accelerated Investor Training (A.I.T.) Learning Paths offer a focused, thorough learning experience.

Taught by seasoned professionals who have hands-on experience in their respective disciplines, the curriculum is delivered in eight distinct vocational paths, which fit into either a Real Estate focus or a Wealth Management focus. This Learning Path format delivers the most effective direction to help learners achieve full understanding of each individual path.

Begin with a solid foundation of three courses in real estate or wealth management, composed of universal content that is applicable in all the related learning paths. This is followed by 4-5 specific strategy courses that go in-depth with vital content. Then, we recommend the perfect bonus courses to complete the educational experience.

### CORE CLASSES

Each path begins with the solid background of the core classes, which provide the necessary knowledge base to employ the more specific steps in the strategy courses. The same three core classes are included with every path in that genre.

### STRATEGY CLASSES

This is where each path takes on it's own direction. These courses are specific to each unique path and provide in-depth knowledge and guidance for learners pursuing that investment type.

### BONUS CLASSES

These classes are available ONLY with the AIT Xtreme Plus package. They are suggestions of courses which coordinate with the chosen path and expand the understanding and effectiveness of an investor.

## WEALTH MANAGEMENT

These paths offer courses a focus on entrepreneurship and business-related financial processes. As new classes are created and recorded, they will be added to each path to continually expand the available knowledge base.

The Finance/Entrepreneur focus currently offers three valuable paths to address the most prevalent needs of the Renatus community members, and offers the direction they need when facing major financial decisions.

### RENATUS COURSE DESCRIPTIONS

*Renatus Real Estate Investing programs cater to both the novice and experienced investor...*

### ADVANCED VELOCITY BANKING

**INSTRUCTOR | TONY SCOTTY**

**LEARNING OUTCOMES** Enjoy a recap of the Velocity Banking strategy, then progress to the next level when we discuss lines of credit, debt transfer and wealth accumulation. Learn how to reduce the amount of interest paid on financed investments and how to manage and maximize cashflow on your portfolio. Learners will deep dive into interest saved vs. total interest reduced, and learn how the flow of money into the portfolio is paramount for success. Specific case studies and examples will anchor the key concepts to ensure you truly comprehend the strategy. Learners will also be able to implement the methods that pay off mortgages years and decades earlier, increase their profitability, and build equity through cash flow management. Developing the Velocity Banking mindset will create opportunities and robust results for your investments, and help anchor your real estate portfolio.

### AUCTIONS

**INSTRUCTOR | JOHN MC CANTS**

**LEARNING OUTCOMES** Don't you want to know the process of buying foreclosed properties at auction from beginning to end? Learn the power of property default lists, the importance of working with a complete list and how to streamline your lead-generation process. John McCants shares the specifics of how auctions are run and the typical timeline that an Investor progresses through as they acquire properties through auctions. Learn how to analyze a potential deal and conduct the all-important pre-auction due diligence. Master the preparation required to safely and effectively make the right bid at auction so you take home a win. Know how to close the sale and what steps to take after you acquire the property, leaving you with the right piece of real estate to make a profit.

### AUCTIONS ANALYSIS

**INSTRUCTOR | DARREN DAVIS**

**LEARNING OUTCOMES** Everyone wants to know how the Student becomes the Master. Darren Davis chronicles his journey from student to master real estate investor in this dynamic and detailed class. Darren shares how laser focus on just one aspect of the Auctions process, the property analysis, made the difference in his investing career. Darren has analyzed literally thousands of properties and purchased hundreds on his journey to financial freedom. Learn "the" method and how to PREP for the auction by Prioritizing, Researching, Estimating and Putting in your bid on potential investment projects. Darren shares his highly personalized spreadsheets and shows how you can build automation into your research to evaluate a much higher number of potential investments while saving time and learning to discard quickly the ones that don't meet your portfolio requirements. Learn how to find local online resources that literally allow you to research hundreds of properties in a day. Know how to determine your max bid to win more auctions, and how to build contingency planning into each deal. Get insider tips on how to conduct visual inspections of the properties before you buy and identify hidden pitfalls that catch every novice investor. Darren also shares what to do after you have won the property and how to jumpstart your flipping, wholesale, or buy and hold strategy.

**INSTRUCTOR TONY SCOTTY**

Tony started his own consulting company in 2008 with a passion for helping others succeed and a desire to partner with like-minded entrepreneurs. By sharing his path on investing in real estate, as well as teaching cash flow management for consumers and small businesses, he continues to reach out to help others succeed in getting their first deal done.

**INSTRUCTOR JOHN MCCANTS**

Licensed real estate broker, investor, and national real estate boot camp trainer, John McCants, has developed a team approach to buying, rehabbing, flipping and maintaining a portfolio of positive cash flow real estate. His preferred method of acquisition is Trustee Sales.

**BANKRUPTCY** **INSTRUCTOR | JOHN DIAZ**

**LEARNING OUTCOMES** Is bankruptcy the best path for you to take? This class will provide you with all the information you need to make that tough decision. We will cover the history and background of the bankruptcy process, with a detailed look at the related requirements and laws. Walk through the necessary steps and get to know the people and organizations that will be involved with each part of the journey, so you know the differences between trustees, creditors and parties of interest. Compare and contrast the two applicable bankruptcy chapters, ensuring your knowledge of the points, plans and consequential actions involved with each option. This class will help you be fully prepared to face a challenging financial situation when you have a firm grasp and understanding of each piece of the bankruptcy puzzle. Set things in order so you can move forward with hope for your future and confidence in your ability to manage your wealth.

**BUSINESS CREDIT** **INSTRUCTOR | MEGAN CHRISTENSEN**

**LEARNING OUTCOMES** This course instructs existing business owners – or those looking to start a business—how to aggressively ramp up their business credibility and financing potential. Megan’s step by step approach shows investors how to lay a solid foundation for Business Credit and ensure that their businesses are consistent in form and classification with the three major Business Credit Bureaus. Maximize business credit approvals using only your business EIN#, without using a personal guarantee, and working with vendors that actually report to the credit bureaus versus the 93% of vendors that don’t. Get an insider’s view of how lenders look at your business credit profile, so you can avoid the top five mistakes business applicants make. The vital information presented in this course is the secret ingredient for entrepreneurs and investors to achieve explosive success in the business world.

**BUY & HOLD DAY 1 & 2** **INSTRUCTOR | CHRIS WILSON**

**LEARNING OUTCOMES** The Buy & Hold investment strategy will benefit both new and seasoned Real Estate Investors. Analyze and know when it is appropriate for a potential investment to be added to your long-term investment portfolio or whether it should be flipped, wholesaled or avoided completely. Learn how to differentiate between available funding options for specific properties and how to identify the cash flow variables and potential obstacles of each. Exit strategy is key, and this course will help you know yours before you purchase that investment property, even when you plan to keep it. Learn how to adjust your acquisition and negotiation strategies for investment properties located in Mortgage States vs. Deed of Trust States, and learn what title insurance does and does not protect. Review the closing documents and other paperwork that is utilized in every transaction and is key to your investing success.

**COMMERCIAL ANALYSIS** **INSTRUCTOR | CHRISTIAN GEORGE**

**LEARNING OUTCOMES** Can we see the future? Not quite, but this class will help you learn which property factors will influence price and future profitability of the project. Learn how to Identify and confidently analyze commercial property. Go beyond Google and find other online and in-person resources to gain understanding of multiple property information sources and how to spot possible development trends. Ensure that you are comparing apples to apples in valuation, use, and location. Take a comprehensive look at financial statements, cap rates, break-even ratios, the pro-forma and other tools necessary to value the business and the property separately, and how to look at business performance to determine what potential borrowing capacity will be. Learn how to leave emotion out of the transaction and maximize each deal using controlled appreciation, amortized debt, and Gross Rent Multipliers. Determine what the property or business net operating incomes are, and how you and your team can make each deal profitable.

**INSTRUCTOR MEGAN CHRISTENSEN**

Megan is an industry leader in Business Credit Building and Small Business Consulting. She currently works as COO and shareholder for CreditSuite, a small business consulting company.

Her career started as a successful Commercial lender and when the time came for a new challenge, she started a small business consulting company and wrote one of the first Business Credit Builder systems. Megan found that small business owners greatly benefited from a caring hand, that could help them navigate through the daunting banking and lending system to identify and utilize the products and financing they needed. Ten years later she has successfully consulted over 25,000 business owners.

Megan believes firmly in caring for each business owner and truly helping a small business owner succeed. In helping them strengthen their financial situation, her hope is that their success will then build up the communities around them.

When not working, you will find Megan spending time with her family and always seeking new outdoor adventures in the Pacific Northwest.

**COMMERCIAL INTRODUCTION** **INSTRUCTOR | CHRISTIAN GEORGE**

**LEARNING OUTCOMES** Our resident commercial real estate expert, Christian George, will take you through the entire purchasing cycle, from initial analysis to the closing table, helping you understand that contracts and due diligence research are the keys to maximizing your earning potential in commercial real estate. Learn the steps to finding and analyzing commercial deals, how commercial leases work and what documentation you need to get the process started. We will compare and contrast lending for business or commercial versus residential property, and give you the foundation to go into the Commercial Lending path. This course is the first step in helping your investment portfolio mature from residential properties to the limitless potential of Commercial Real Estate.

**COMMERCIAL LEASES** **INSTRUCTOR | CHRISTIAN GEORGE**

**LEARNING OUTCOMES** Maximize the profitability of each property and your overall portfolio when you understand and utilize commercial leases. Like the REPC, the commercial lease is a key tool in property management, and in successfully controlling and generating cash flow from your commercial properties. Learn the various sections and details of a standard commercial lease and the supplemental tools that will take your property management to the next level. Master the lease terminology and common contract clauses that can “make or break” your leases. Determine the level of management your property will demand and the service requirements your tenants will expect as you select and create, Full Service, Net-Net, and Triple-Net lease contracts. What kind of Landlord are you?

**COMMERCIAL LENDING** **INSTRUCTOR | CHRISTIAN GEORGE**

**LEARNING OUTCOMES** Are you ready to add more substance to your investment portfolio? Commercial lending can help you get there by reviewing the commercial loan application process and several strategies for acquiring commercial and business funding. Take an in-depth look into the process that banks go through as they review applications, submit loans to committee and then decline or approve loans applications. Learn how to create lasting banking relationships with public and private lending institutions and how to negotiate the right financial terms to secure your company’s greatest profitability and success. Explore the power of creating a “Book of Life” for your business that will enable you to approach lending institutions from a position of leverage and then negotiate the best possible rates for the money you borrow.

**COMMERCIAL PROCEDURES** **INSTRUCTOR | CHRISTIAN GEORGE**

**LEARNING OUTCOMES** This class will guide you through the sometimes-turbulent waters of Commercial Real Estate transactions. You will begin with finding the right commercial investment opportunities, learn how to analyze the pros & cons of each potential property, then determine if the investment is a good fit for your portfolio and management structure. The course will include robust discussions on deeds, inspections, environmental research, contract requirements, and making certain you have all the right information. We will cover creation of the potential transaction and how understanding and satisfying seller needs is crucial to a successful process. Walk through step-by-step negotiation strategies, as well as settlement and closing procedures and all the necessary details that go into securing a great commercial investment property.

**INSTRUCTOR DARREN DAVIS**

With experience in fixing and flipping in a down market, Darren has taken part in developing and implementing investment strategies that have concluded more than 100 deals and generated more than 1.8 Million dollars in profit.

**INSTRUCTOR CHRISTIAN GEORGE**

Christian George is a business proprietor and seasoned escrow officer. He specializes in title transfer and teaches every step of the closing process. He demonstrates his experience in every aspect of closing all types of real estate transactions.

**CONTRACT FOR DEED****INSTRUCTOR | TONY SCOTTY**

**LEARNING OUTCOMES** Why would you want to use the Contract for Deed strategy to purchase an investment property? This informative course explains how a Contract for Deed purchase can open numerous investment opportunities on properties that previously failed to make investment sense, but now work under new cashflow management and financing. Learn about relevant legislation and the best practices for contract structure to minimize variables and maximize your profits. In this course you will go in-depth on purchase and exit strategies, and funding deal structuring with partner, and third-party servicing agencies. Learn how to find the right property and the right occupant, and assemble a fantastic team that will carry you to a spectacular future.

**CONTRACTS****INSTRUCTOR | NICOLE CALL**

**LEARNING OUTCOMES** Contracts are the most important resource in an investor's tool-kit. They will make or break your deals, directly determine your profit or loss, and ensure that each party gets what they bargained for. Attorney, educator, and speaker, Nicole Call, helps you understand the power behind each clause in the Real Estate Purchase Contract. Nicole begins with basics, such as: What are contracts? Where can I find good contract templates? Why and when do I use specific forms in my real estate investing? Gain access to contract checklists and REPC instructions while learning about contract addenda, ancillary contracts and rental/lease agreements. Know when you may need additional legal counsel to protect your interests and get the deal done. Review the nitty gritty details of how best to complete these important documents and empower yourself with the tools to get the deal done fast and right, the first time. This course will have you negotiating better deals, faster closes and more investment transactions for your real estate portfolio.

**COST SEGREGATION****INSTRUCTORS | KIM LOCHRIDGE & HEIDI HENDERSON**

**LEARNING OUTCOMES** Cost Segregation is a useful and effective strategy that can be employed by business owners to save them thousands of dollars. Kim and Heidi start with the basics of cost segregation history and the process of depreciation. They inform learners about tax laws and how they may or may not apply to you, even including some case studies as examples. Our brilliant instructors will discuss the differences between Repairs and Improvements, with the money-saving details you need to know. They will introduce the world of Energy Incentives and finish up by explaining the opportunities involved with Conservation Easements. By the time Kim and Heidi have presented their course, you will be amazed and enthralled at how much this simple process can improve your small business finances!

**CREATIVE ACQUISITIONS****INSTRUCTOR | CHRIS ALBIN**

**LEARNING OUTCOMES** You will be inspired by these creative techniques and strategies for acquiring and gaining control of investment properties. Basic investment skills, control terminology and understanding potential seller motivations, will provide a solid foundation for purchasing properties once they are found. Strategies include equity sharing, options, contracts for deed, seller financing, mortgages, and more. Using case studies, learners gain an understanding of step-by-step techniques for buying and controlling properties without having to qualify for bank financing. You will leave this class with a knowledge of which investments would be best funded through retirement accounts, cash accounts, stock accounts, life insurance plans, margin accounts, and others. We will also train investors how to best utilize financial and social resources, as well as time, imagination, networking, and non-traditional assets to successfully acquire investment properties.

**INSTRUCTOR NICOLE CALL**

Nicole Call is an attorney and real estate investor who loves to teach and share knowledge. She is always excited to share with you the best practices in contract work, with tenant/landlord relationships and using the law in your business, for your protection and investing success. She firmly believes the contracts side of real estate is the most important tool in your Real Estate Investing Tool Box!

**HEIDI HENDERSON & KIM LOCHRIDGE**

Heidi has a masters in Accountancy and over 20 years of real estate and investing experience, and her sister Kim is also a tax consultant, entrepreneur, real estate investor and worldwide speaker. Together, they created the Cost Segregation class, which is new to Renatus, and presents cost-saving information geared toward small business owners.

**NANCY & JAY ABRAMOVITZ**

*Nancy and Jay are examples of learners who have applied the Renatus education and gained financial freedom through the investment principles taught in these courses.*

As entrepreneurs with a high-end home furnishings business, the Abramovitzs were seeking a new source of income when they found Renatus in 2011. They dove in to the education and the community, and by 2014 were experiencing enough financial success to close their furnishings business and focus on their real estate investments full time.

They have completed 12 Fix & Flips and are now expanding to invest in multi-family units, which they will hold for passive income. In a recent transaction, Jay was pleased when an extremely experienced banker suggested a Seller-Financing strategy that Jay had already recognized as a good fit for the situation. This reinforced their knowledge that the Renatus education is reliable and comprehensive.

Nancy and Jay love sharing their story and are enthusiastic in helping others find the education and support that they enjoy as active participants of the Renatus Community.

**DEAL OF THE DECADE****INSTRUCTOR | CHRIS ALBIN**

**LEARNING OUTCOMES** Sometimes the best path is a non-traditional one. In Deal of the Decade learners experience numerous strategies for creative lead generation that can assist you in finding and purchasing all types of real estate investment properties. Learners study how to locate properties before they hit the retail market or the MLS by finding deals through probate, eviction, for sale by owner and other public information systems. Current real-life case studies walk learners through the step-by-step process for lead generation through numerous sources. Our master instructor will also help you learn tactical, non-aggressive techniques for approaching your prospects and getting them to entertain offers from you as a potential investor. See the value of being a resource to people as they manage court cases and how to become the go-to problem solver for property owners in your area.

**DUE DILIGENCE****INSTRUCTOR | NATHAN TABOR**

**LEARNING OUTCOMES** Due diligence can be the life saver that keeps your deal afloat or lets you know when to back out of seeming perfect deal. Nathan Tabor instructs on this critical topic and teaches how to conduct a detailed investigation, including interviews and document collection. Develop your eye for details and apply common sense to every real estate investment. Understand the necessary steps during each of the three major components of due diligence: pre-offer, offer accepted and after closing. Nathan suggests checklists and worksheets to guide you through any size property transaction, from residential to commercial. Know the legal and government regulations, how they affect your deal and what you can do to protect your investment. Learn what environmental factors to consider and what paperwork to you need to collect or create. Ensure every deal you do is as safe and secure as possible so you can take control of your financial future.

**EAST TRACK REVIEW****INSTRUCTOR | CHRISTIAN GEORGE**

**LEARNING OUTCOMES** Renatus Content Director Christian George guides you through the many resources available to you as a Renatus Community Member, and gives you an overview of what your Renatus purchase includes. Christian takes students through an investor questionnaire that will direct you to one of two learning paths for your Essentials Education experience. Determine whether you should start with Financial Awareness to set a foundation for future investing or, if you have immediate real estate needs, a Real Estate path that will give you critical information and tools to help with current real estate transactions. Learn about Renatus company goals and policies that can help you accelerate the process and be at your best along your path to wealth and prosperity. Explore our E.P.I.C. Solution to investing and realize how forming your own cabinet of councilors for your real estate business is vital. Discover unique software and tools provided by Renatus to streamline your financial journey, build your team and increase your probability of investment success!

**HOME INSPECTIONS****INSTRUCTOR | JASON ANDRUS**

**LEARNING OUTCOMES** Do you need a property inspection to be an informed buyer and a confident investor? Jason Andrus goes through the process from roof to foundation, so you can walk a property knowing some of the red flags and warning signs that signal a serious problem. **FINANCIAL STRATEGIES****INSTRUCTOR | J. MASSEY**

**LEARNING OUTCOMES** Investing in real estate does take money, however, it doesn't always have to be yours. Utilize your personal financial resources when needed, but also learn how to tap non-traditional funding sources like retirement accounts, 401ks, private money lenders, hard money lenders and your social network. Master real estate investor, J. Massey, teaches advanced real estate funding strategies that span the market. Learn which types of investments are best funded through retirement accounts, cash accounts, stock accounts, insurance accounts, and margin accounts. Learn the reasons behind making these financial decisions as an investor, and gain context for combining your resources within your network. Many transactions require multiple funding strategies on the same project to get the best deal and make your investment as lucrative as possible. Master them all right here.

**FIX & FLIP DAY 1 & 2****INSTRUCTORS | HEATHER HERING & BEN ECHEVARRIA**

**LEARNING OUTCOMES** Timing is pivotal in the Fix & Flip strategy. Learn how to analyze the ideal target property, then identify the specific steps that will be required during the Fix & Flip process for that property to achieve the highest success and massive profits. Decide which tasks to undertake personally when doing a Fix & Flip, and when and how other tasks should be delegated to sub-contractors and team members. Learn the specific "how-to's" that generate on-time project completion and profitable margins. We will review the acquisition, repair, escrow, and marketing processes, in addition to detailed property evaluation strategies which allow you to estimate repairs accurately the first time. Find and recruit with the best people for your team and learn effective strategies in positioning your investment property for sale. Make sure you know the target market of your property, and the attributes that will make that property valuable in that area.

**FORECLOSURES****INSTRUCTOR | GAVIN MC CALEB**

**LEARNING OUTCOMES** Rockstar real estate coach and investor, Gavin McCaleb, teaches multiple strategies for finding foreclosures, and understanding the timelines for the entire process. You will learn insider tips to working with sellers in pre-foreclosure and those who are nearing an auction date and gaining access to potential investment properties before they hit the market. Gavin teaches problem solving techniques you can share with sellers, demonstrating options they have when in foreclosure and learn how to position yourself as an investor resource that may help them solve some of their challenges. You will also compare the benefits of getting funded through institutional banks versus private lenders and how to create and maintain active property lists. Due diligence and deal analysis will be covered in depth, so you truly know how to make the right decisions when it comes to foreclosure properties and how to make the market work for you!

**LAND DEVELOPMENT****INSTRUCTOR | GARY CANNON**

**LEARNING OUTCOMES** Veteran Real Estate Broker and Land Developer, Gary Cannon, takes students through the often-overlooked and very lucrative world of land development. Focusing on large land parcels and small in-fill development parcels, Gary shows us that you don't have to be a major corporate builder to find and entitle real estate. Learn how to create a step-by-step development plan for any size and type of property, and then learn how to work with government entities and utility companies to get your project approved. Discuss in-depth when you might want to wholesale a project, entitle buildable lots, or complete a full-scale development plan with infrastructure and marketing. Learn how to estimate costs for projects before you pull permits and pay development fees. Networking is key and Gary shares how you, as an investor, can create relationships with key players in the development arena, which will allow you to find more deals, complete more projects, and greatly outpace the competitors. Find thousands of dollars in additional revenue and more completed projects because you can see projects other developers can't. Let your own vision and imagination guide you on the path to financial freedom.

**INSTRUCTOR HEATHER HERING**

Heather has a master's in accounting and has been an active real estate investor for over a decade. Her business, Innovative Custom Homes, strives to make each home a work of art and craftsmanship. Heather was named Best of Houzz Customer Service and Design and has been recognized as one of the top selling agents in her market.

**INSTRUCTOR BEN ECHEVARRIA**

Ben transitioned from real estate investor to entrepreneur, managing large businesses and reaching the goal of financial freedom. He grew his side business into a career. He teaches that the finest homes combine the vision and talents of the homeowner, builder, architect, designer, and others.

THE O'NEAL FAMILY

We purchased the Renatus education in January of 2013. With a background in construction and running our own remodeling company, we were excited to learn how to Fix and Flip single family homes here in our local market of Salt Lake City. We had lived in Hawaii for the past 8 years and begun our family there.

Our son, Josiah had contracted a rare childhood cancer in 2009 at the age of 1.5. We underwent chemotherapy and used up most of our resources in his medical care. When he had some complications, we moved back to Salt Lake City in 2010 to be with family and receive care at Primary Children's Medical Center. We moved into a family members basement apartment and after 2 open heart surgeries and another round of chemo Josiah was on a path to full recovery and is now a happy healthy 9-year-old boy.

We were in a tough spot financially. The economy in 2011 was down and jobs in construction were paying about \$12/hr. Jon started roofing with a friend to make ends meet and we noticed that there was an abundance of homes in distress and foreclosure. With the help of family, we were able to qualify for a mortgage and bought our first home ever in 2011 for \$47/sq. ft. Knowing that was less than Jon could build one for, we moved in and began rebuilding that house as well as our finances. After realizing that decision to buy a home had put almost \$100k in equity in our lives we went on a search to get better educated in Real Estate Investing. After experiencing a couple guru seminars, we found a local Renatus group that met consistently and had many people succeeding in Real Estate and Business. We bought the Xtreme Combo in January on some 0% Intro credit cards and dedicated ourselves to learning the strategies needed to succeed. We watched Self Directed IRAs from attorney Matt Sorensen and used that knowledge to raise \$250k in private capital by offering a 2% return backed by 1st position on title of our first Fix N Flip house. We bought that home for \$78,000 on a short sale and sold it 33 days later for \$139,900. We netted over \$37,000 on our first deal and our investor made \$5600 tax free in his SDIRA.

We continued to use that strategy to fix and flip 5 more homes the next year. The amazing thing about lifetime updated education from Renatus is that they teach all the strategies to be successful in Real Estate Investing. We continued to learn new ways to Find, Fund, Hold, and Sell houses. In 2015 we acquired this property featured here. We purchased this home with no money out of pocket for \$260,000 by using the Subject To strategy taught by Brian Sump in the Renatus AIT track of Lease Options. The house sat on .5 Acres and we learned how to subdivide from Gary Cannon's AIT class on Land Development. We took it through the county process and sold the paper lot next door for \$95,000 which was a net profit of \$92,340.70. The best part is we kept the house and refinanced it with the equity. We now have it rented for a cashflow of \$450/mo. Using the Velocity Banking strategy, we will have that rental paid off within 2 years. All together in 4.5 years we have made over 1.4 million with Renatus. Over \$800,000 with their business opportunity and the rest in Real Estate. We have cash flowing rentals and are now financially independent living our dream of helping others achieve success through Renatus. We are forever grateful to Bob Snyder and Renatus for all they have taught us and envisioned.

*"We are forever grateful to Bob Snyder and Renatus for all they have taught us and envisioned."*

**SANDRA OSTRANDER**

Sandra is a veteran of the U.S. Army and when she was injured on the job, she had to find another source of income. She was determined to invest in real estate, but struggled to find education that could help her reach her goals. In 2015, she discovered Renatus and her life was forever changed.

As an active member of the Renatus community in Atlanta, Sandra has now completed 28 deals. She learned how to purchase properties creatively, using little or none of her own money, and attributes her inspiration to Chris Albin's course, Creative Acquisitions. She focuses on purchases using the Contract for Deed strategy, which allows her to acquire properties and increase cash flow, without using out-of-pocket funds. Sandra also does fix & flips to generate revenue and is focusing her efforts on acquiring Buy & Hold properties to create multiple long-term streams of income.

Recently, Sandra began moving into commercial real estate when she purchased the property (pictured above) in late 2018. It was a lifelong dream come true for Sandra and she recalls saying to herself in her twenties, "I am going to own that place some day." When she is finished with the remodel, the building will provide income in addition to becoming an office and training center for the Atlanta Renatus Real Estate Community.

Sandra has always loved to travel with her family but when the children were little, because of finances, they were seldom able to do so. Now, thanks to the extra income from her rental properties and the time freedom of being her own boss, the family travels together often, spend quality time and making wonderful memories with each other.

Sandra loves being involved in the Renatus community. From local meetings and Leadership Retreats to the annual National Conferences, Sandra loves being part of the Renatus "Family." The community relationships and industry connections made have been a great tool to her in combination with the Renatus educational services. Wonderful community members have helped her think through deals and find solutions to challenging real estate situations. Sandra is looking forward to helping others find the success in real estate and in life that she now enjoys.

**RICHIE & JENNY GALARSE-PANCOAST****Investor Success**

- Used the Velocity Banking class to pay off \$36,000 in student loan and credit card debt in 6 months
- Used the same class to increase cashflow by converting their mortgage to a 1st position HELOC saving \$1800 in interest per month
- Acquired their first rental property in Utah in October 2015, using no money out of pocket, generating a cash flow of \$500 per month
- Richie left W-2 job (Finance Instructor at Sweep Strategies) end of April 2016
- Partners in 6 real estate deals throughout 2016
- Sold rental property in Utah June 2017, making a profit of \$61,000
- Jenny left W-2 job (Registered Nurse @ Queen's Medical Center) mid-February 2017
- Acquired and currently working on their first Fix & Flip project in Honolulu, HI with no money out of pocket with an estimated \$150,000 to \$200,000 net profit

Richie and Jenny Galarse-Pancoast started the Renatus education in March of 2015. Richie felt this was THE way to help Jenny leave her job as a Registered Nurse at the busiest hospital in Honolulu, Hawaii, and made it his goal to apply the education to earn enough money and reach a point where Jenny did not have to exchange hours for dollars at the hospital. At first, it was hard to fathom due to the high cost of living along with the "great income" and "benefits" the W-2 job came with. Time was the significant sacrifice they had to make to live comfortably in Hawaii. The education helped Richie and Jenny find ways to improve their finances through cashflow recovery and take advantage of the REAL benefits of being business owners and real estate investors no matter where they were.

In February of 2017, Jenny's last day working at the hospital was met with joyful screams from their two children, daughter Amethyst and son Noah. Richie reached his goal to have Jenny leave her job after approximately 2 years of working with Renatus.

*"Creating time freedom flexibility via business ownership and real estate investing became our main focus so that we could spend more time with our children, especially Amethyst, who was recently diagnosed with ADHD. We never thought this would be possible until the Renatus Education showed us the path. It was our responsibility to take it and make it work for us!"*

- JENNY

*"Everything we have done through business structure, personal and business finance structure, and real estate investing all came from our A.I.T. Xtreme Plus education! I can't stop being in awe of comparing where we were and where we are now... I finally feel my vision from all those years ago of wealth in time and money has come true."*

**TAX & LEGAL STRATEGIES DAY 1 & 2** **INSTRUCTOR | MARK KOHLER**

**LEARNING OUTCOMES** One of our most popular courses by far, CPA/Attorney Mark Kohler will blow your mind with new strategies for maximizing your cashflow by minimizing what you pay in taxes. This course covers planning, protection, deductions, entities and assets. Learn everything from the foundational tax and legal strategies, to determining how and when you should form a business, and how to turn that business into a cornerstone of your wealth management program. Learn how to legally move from taking 5-15 deductions to taking advantage of over 450 expenses and deductions as a business owner. As a small business owner you are entitled to take advantage of many of the same (and often more) tax strategies than Big Business. Over two days you will explore how to legally pay your children, how to maximize contributions to retirement accounts, how to protect your assets long term, and why everyone needs to buy at least one investment property per year. High energy and high impact, Mark will show you how he manages his cashflow to pay the US government as little as possible and how you can, too. Discussions will include small business basics, choice of entity and options, rental real estate, and asset protection. Sit back, hold on and take notes, as Mark shares over 100 individual strategies for wealth accumulation and investing success.

**INSTRUCTOR MARK KOHLER**

Mark Kohler, M.Pr.A., C.P.A., J.D., author and hands-on personal and small business tax and legal expert, helps clients and teaches his students how to build and protect wealth through wealth management strategies and business and tax remedies that are often overlooked.
