

TYPES OF GASKET

AND THEIR USE

No.	GASKET TYPE	IMAGE	MAIN USE
1	FULL FACE (FF) GASKET		 Flat face flange
2	RING GASKET (FLAT RING)		 Raised face flange
3	SPIRAL WOUND GASKET		 High pressure & high temperature
4	RING TYPE JOINT (RTJ) GASKET		 Very high pressure pipelines
5	CAMPROFILE (KAMMPROFILE) GASKET		 Heat exchanger & critical flanges
6	METAL JACKETED GASKET		 Heat exchangers, boilers
7	CORRUGATED METAL GASKET		 Steam and hot oil lines
8	PTFE ENVELOPE GASKET		 Chemical service
9	RUBBER GASKET		 Water and low-pressure service
10	COMPRESSED NON-ASBESTOS FIBER (CNAF) GASKET		 General industrial piping
11	GRAPHITE GASKET		 High temperature service
12	SOLID METAL (LENS RING) GASKET		 Extreme pressure & temperature
